In a federal prison in Polk County, Texas, Winston Butang sits on death  
row, awaiting lethal injection for his brutal murder and desecration of a  
pedophilic priest. Butang, better known in the media as the Stigmata  
Killer, has no reason to believe that anyone will give the eventual outcome  
much thought. Someone, however, has thought about it a great deal, and  
Winston is surprised when one of his guards springs him and whisks him  
off to a secret bunker in the woods. Stranger still is the fact that his  
liberator, Vincent Veselli, is none other than the illegitimate son of the  
murdered priest. Veselli, it turns out, had witnessed the butchery of his  
father and got his job as a death-row guard as part of a long quest to free  
the man who did what he could not. Things take a further unexpected  
twist when a catastrophic firestorm sweeps the area, portending some  
form of Armageddon that has engulfed the continental US. The two  
emerge from their secret bunker and, together, make their way north  
across a surreal landscape of death and devastation, but they still make  
time for a series of explicit intimate encounters that push and pull the plot  
line.

In today's world, image is everything! Imagine navigating through childhood and your adult life carrying the baggage of being bullied or called a sissy because you were unable to stand up for yourself. Lyman Montgomery lived that life and suffered great and consistent losses. Before age of 14, he was sexually abused by a trusted teacher and experienced the death of two of his grandparents-one of which took her own life. Lyman kept silent about his abuse, avoided dealing with the grief of his father's death by never mentioning him, associated with people who were better off financially, developed unhealthy relationships with women, performed as others expected, used accomplishments to feel better about himself and projected a religious lifestyle that was not rooted in righteousness. Shattered Masks: 7 Masks We Wear is an autobiographical account of how masks are made in a young person's life. It is also a self-study to help you identify the mask makers in your life and to shatter the masks you've grown accustomed to wearing.

The Hatford-Malloy feud continues in this fast-paced sequel to The Boys Start the War and The Girls Get Even (both Delacorte, 1993). Their egos still smarting from the humiliation they suffered on Halloween at the hands of their female neighbors, the Hatford boys try to frighten them with tales of the abaguchie, a creature of local legend. A funny series of plans for revenge and retaliation from both sides follows. Ultimately, the children call a truce when they are united by a common cause-sharing a joke at their parents' expense. Although this title sums up the background of the story clearly, it relies on the earlier books for characterization. The girls come across as stereotypes-an athlete, a bookworm, and an aspiring actress-and the boys are virtually indistinguishable from one another. Nevertheless, fans of the previous books will enjoy this installment.

They ended up developing an entirely new species that would change history and space forever. In Mates: From the Beginning, young Adam and Eve are forever under suspicion by the government due to their odd appearances and staggering intelligence. Choosing to fake their deaths and complete their genetic modifications away from prying eyes, Adam and Eve return as “ aliens ” to help the governments they once hid from.
