In the books first essay, The Ben-Gurion Magnes Debate, Jewish State of Binational State, Professor Heller juxtaposes Ben-Gurion and Magnes as pivotal adversaries speaking to the primary problems of Zionist ideology and identity. He chooses the mythic personification of the State of Israel, the new nations sturdiest founding father, its first commander-in-chief, first Prime Minister, and first Minister of Defense, David Ben-Gurion, to represent the Zionist position of a country just for the Jews. On equally matter-of-fact pragmatic grounds, Heller selects Ben-Gurions foremost critic, the founding embattled Chancellor and President of the Hebrew University, Judah Magnes, to represent the bi-nationalist proponents of an Arab-Jewish joint entity that had not the remotest chance of acceptance by either Arabs or Jews. Conversely, the high expectations, moral fervor, and utter candor that imbue the Ben-Gurion-Magnes discourse, including joint interviews arranged by Magnes with Arab intellectuals that all failed, as conveyed by Heller, capture the essence of the Jewish-Arab dilemma and the beguiling authenticity, spaciousness and universalism of the Zionist vision at its most imaginative. Hellers companion essay, Israels Borders in Historical Perspective: The Security-Demography Dilemma, provides a vivid running historical account and analysis of Israels infrastructure, its borders and non-borders, its population densities and non-densities, its defenses and non-defenses in the face of the continual besiegement from the first day of its existence. Understandably, every young Israeli still remains conditioned to regard herself or himself to be a soldier on leave. Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds appearing in Voices of a People 's History of the United States, edited by Howard Zinn and Anthony Arnove. Paralleling the 24 chapters of Zinn 's A People 's History of the United States, Voices of a People 's History is the long-awaited companion volume to the national bestseller. For Voices, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen, but who usually are underrepresented or misrepresented in history books: women, Native Americans, workers, blacks and Latinos. Zinn has written short introductions to the texts, which themselves range in length from letters or poems of less than a page to entire speeches and essays that run several pages and longer. Voices of a People 's

History is a symphony of our nation 's original voices, rich in ideas and actions, an embodiment of the power of civil disobedience and dissent, wherein lies our nation 's true spirit of defiance and resilience. Beloved historian and activist Howard Zinn is the author of the best-selling A People 's History of the United States and many other books, including The Zinn Reader (Seven Stories Press 2000), Artists in the Time of War (Seven Stories Press, 2003) and Terrorism and War (Seven Stories Press 2002). Anthony Arnove is the editor of Terrorism and War by Howard Zinn, and Iraq Under Siege. An activist and regular contributor to ZNet, his writing has appeared in The Nation, The Financial Times and Mother Jones. He lives in Brooklyn, New York.

The First Conference on the History of Nordic Computing (HiNC1) was organized in Trondheim, in June 2003. The HiNC1 event focused on the early years of computing, that is the years from the 1940s through the 1960s, although it formally extended to year 1985. In the preface of the proceedings of HiNC1, Janis Bubenko, Jr., John Impagliazzo, and Arne Sølvberg describe well the peculiarities of early Nordic computing [1]. While developing hardware was a necessity for the first professionals, quite soon the computer became an industrial product. Computer scientists, among others, grew increasingly interested in programming and application software. Progress in these areas from the 1960s to the 1980s was experienced as astonishing. The developments during these decades were taken as the focus of HiNC2. During those decades computers arrived to every branch of large and medium-sized businesses and the users of the computer systems were no longer only computer specialists but also people with other main duties. Compared to the early years of computing before 1960, where the number of computer projects and applications was small, capturing a holistic view of the history between the 1960s and the 1980s is considerably more difficult. The HiNC2 conference attempted to help in this endeavor.

"Sheldon Wolin's Politics and Vision inspired and instructed two generations of political theorists after its appearance in 1960. This new edition retains intact the original ten chapters about political thinkers from Plato to Mill, and adds seven chapters about theorists from Marx and Nietzsche to Rawls and the postmodernists. The new chapters, which show how thinkers have grappled with the immense possibilities and dangers of modern power, are themselves a major theoretical statement. They culminate in Wolin's remarkable argument that the United States has invented a new political form, "inverted totalitarianism"; in which economic rather than political power is dangerously dominant ... Wolin originally wrote Politics and Vision to challenge the idea that political analysis should consist simply of the neutral observation of objective reality. He argues that political thinkers must also rely on creative vision. Wolin shows that great theorists have been driven to shape politics to some vision of the Good that lies outside the existing political order. As he tells it, the history of theory is thus, in part, the story of changing assumptions about the Good"--Publisher's description.

The woke have taken over every major institution in this country—the schools and universities, corporate America, the media, and the government. It 's time to fight back. Actively Unwoke will show you how. For the last several years, we 've watched as woke political activists have staged destructive protests, destroyed businesses, hurled accusations of racism and white

supremacy around as if those terms mean nothing, and publicly bullied and canceled anyone who disagrees with them. These authoritarians claim to represent social justice, but they are about one thing: power. Their goal is nothing short of cultural revolution. So what do we do about it? Actively Unwoke explains what 's going on and decodes the language the woke are using so that you can understand what we 're up against. To inspire you and explore actionable strategies you can take, Karlyn Borysenko looks at ways real people have fought back in the real world. This includes fighting back in the schools, knowing how to act when the woke come to work, taking a stand with your elected leaders, and even a few subversive strategies just for fun. This book also reveals how to survive cancelation (yes, it 's possible) and how to take care of yourself as you join a ragtag group of misfits to do battle with the greatest existential threat of our time. If you ever wondered what you would have done during the Civil Rights movement or in 1930s Germany, the answer to that question lies in what you are doing now. This fight isn 't about left or right, Democrat or Republican. It 's not about liberal values or conservative values. It 's about protecting American values. This book will give you everything you need to join the unwoke army. It 's not enough to just be unwoke anymore—it 's time to be actively unwoke.
