Bond Markets, Analysis, and Strategies. Frank J. Fabozzi. This

comprehensive textbook on bonds takes a practical real-world

approach to the subject. It includes a detailed discussion of each type of

bond including a wide range of products. The text features

comprehensive discussion of not only the instruments, but their

investment characteristics, the state-of-the-art technology for valuing

them, and portfolio strategies for using them.

A fundamental property of a bond is that its price changes in the opposite direction from the change in the required yield. The reason is that the price of the bond is the present value of the cash flows. As the required yield increases, the present value of the cash flow decreases; thus the price decreases.
