BehavePlus Fire Modeling System Simon and Schuster

The ultimate guide to building protection from the elements, perfect for beginners and experienced outdoor enthusiasts alike. You can survive a couple of weeks without food and a few days without water, but in some cases, you would be lucky to survive one night without shelter. With structures ideally suited for any weather condition, this book presents emergency shelter designs built from a variety of elements, including 100 percent gathered items, a combination of natural and store-bought supplies, and even durable construction materials. The author offers helpful tips and techniques for mastering your shelter-building skills, as well as tutorials on how to make basic tools, bedding, mattresses, and other items to increase shelter comfort. Packed with easy-to-follow instructions and step-by-step photos, this all-encompassing primer teaches you how to construct a variety of lifesaving shelters, including: · Rock Shelter · Debris Hut · Lean-To · Bent Sapling Shelter · Snow Cave · Subterranean Shelter · Scandinavian Lavvu · Ger/Yurt · Basha/Tarp Shelter
Hot Coals Abrams

Modern living isn't easy. It often seems to require some know-how our parents didn't pass on, or a special tool. Happily, Kaufmann Mercantile has both, and in this comprehensive field guide, they share their expertise on a huge range of topics, from frying an egg, tying a tie, or brewing coffee to things the inner utilitarian in all of us aspires to do, like splitting wood, building a fire, growing our own food, or making our own soap. Fifty how-tos are organized into five sections: Kitchen, Outdoors, Home, Garden, and Grooming. Written in clear detail and extensively illustrated, The Kaufmann Mercantile Guide teaches us what we ought to know how to do, as well as what we'd like to. Supplemental sidebars feature the best tool for the job, whether a dibber for planting, the best rawhide-and-ash snowshoes, or flammable smoking bags for making authentic BBQ. This book is a must-have reference tool for living well in the twenty-first century.

A Guide to the Kalmiopsis Wilderness Penguin Standard issue for all Starfleet Officers, this vital tool for space survival covers everything from space suit leaks and hotwiring a tri-corder to hostile alien encounters. Paying particular attention to the importance of initiative in situations where available technology is malfunctioning, The Survival Guide is broadly divided into the following sections: understanding alien technology; dealing with alien wildlife; modifying federation technology; and encountering temporal anomalies. There is information on essential Federation emergency equipment, and various extreme escape and survival scenarios are accompanied by actual accounts by legendary Starfleet heroes of their own dramatic

improvisations. The whole is illustrated throughout with explanatory black & white line art illustrations, easy to follow in a crisis -- especially valuable when a reader is stranded on a downed shuttlecraft with only a com-badge and a self-sealing stem-bolt.

User's Guide for Smokeview Version 1.0 Prabhat Prakashan

The FAST/FFM computer model provides dynamic, quasi-three-dimensional predictions of furniture fire growth and burnout in a room as well as of the spread of both nontoxic and toxic gases, smoke, and fire to other rooms. This reference guide provides a detailed description of the furniture fire model (FFM) equations, the program structure of FFM and its insertion into FAST, the FFM data input requirements, and the output produced by version 3 of the model.

A Beginner's Guide to Campfires - Campfire Tips and Techniques, Safety and Cooking Table of Contents
Introduction Building a Campfire Picking the Right Spot Building a Fire Pit How much Fuel Do You Need Keeping Your Fire Going in the Rain What to Do with Limited Fuel? Lighting the Fire Safely Fire Safety Putting out Your Campfire Cooking Meat in a Campfire Spiced Salt Useful URLs Conclusion Author Bio Publisher Introduction Ancient Greek mythology says that an adventurous and enterprising young lad named Prometheus crept into Olympus and stole one of the secrets of the Gods- Fire. As punishment, Zeus condemned him to have his liver eaten by an Eagle every morning. So while Prometheus had his liver eaten (it grew again during the night) mankind benefitted by one of Nature's most powerful gifts- Fire. Any logical 21st century thinker is going to be entertained by this way of explaining the magic and phenomenon of fire as a treasure the Gods wanted to keep to themselves. Naturally, the ancient Greeks did not look into the much older practical use to which fire was already being put

by man, much before he began dreaming up myths. Fire system.

was the first natural power harnessed by man which separated him from other animals eons ago. He used it for warming his camp and hearth, cooking his food, protecting him from other animals and providing him with heat and light as well as psychological comfort at night or during inclement weather. Is it surprising then, that every civilization down the ages worshipped Fire? Not only was this power necessary for survival, but it was the holy symbol around which mankind wove his culture, rituals, and future traditional basis of religious celebrations.

The BehavePlus fire modeling system is a program for personal computers that is a collection of mathematical models that describe fire and the fire environment. It is a flexible system that produces tables, graphs, and simple diagrams. It can be used for a multitude of fire management applications including projecting the behavior of an ongoing fire, planning prescribed fire, and training. BehavePlus is the successor to the BEHAVE fire behavior prediction and fuel modeling system. Primary modeling capabilities include surface fire spread and intensity, crown fire spread and intensity, safety zone size, size of point source fire, fire containment, spotting distance, crown scorch height, tree mortality, wind adjustment factors, and probability of ignition. The User's Guide describes operation of the program. Other papers describe the models and application of the

Make FEMA

The Starfleet Survival Guide Simon and Schuster

Learn how to safely build projects that burn, poof, "boosh," and flare! This complete reference and hands-on guide to working with propane explains how to create a variety of flame effects projects that can be built with common tools and materials. Starting from the basics, this book explains everything you need to know to safely work with propane. An essential reference for building projects like fire cannons, forge torches and flaming sculpture, Make: Fire explains the history, chemistry, and combustion of propane. Using that knowledge as a foundation, readers can then construct a variety of flame-based project on their own using illustrated, step-by-step instructions provided by the author. With simple tools, you can build a gorgeous

flambeau, a torch capable of melting aluminum, or flame effects that ignite jaw-dropping fireballs in the sky. Focusing on safety at every step and written by a licensed Flame Effects Operator, this book provides information that has never been brought together in one place. With this guide, readers will master the fundamental components of almost all propane-based projects and develop the skills they need to create their own flame devices and artworks.

The MeatEater Guide to Wilderness Skills and Survival Rowman & Littlefield

The BehavePlus fire modeling system is a computer program based on mathematical models that describe wildland fire behavior and effects and the fire environment. It can be used for a host of fire management applications including projecting the behavior of an ongoing fire, planning prescribed fire, fuel hazard assessment, and training. This is a reference paper that describes the 181 variables in BehavePlus, with information on input and output relationships. A User's Guide (RMRS-GTR-106) describes operation of the program and can be accessed at

http://www.fs.fed.us/rm/pubs/rmrs_gtr106.html.

Smoke Exposure Management on the Fire Ground

As climate change continues to wreak havoc on

the environment, devastating wildfires, both natural and manmade, are increasing. The figure for average acres burned has increased from almost 2 million acres in 1992 to nearly 7 million in 2012, which set a new record with an average of 165 acres burned per fire. Things are heating up, but global warming isn't the only problem. Budgets for fire suppression have been slashed severely. The number of air tankers has decreased from 44 in 2002 to just 9 in 2012, which means fast attacks on fledgling fires will grow more difficult in the future. If you live in a wildland-urban interface, the zone between unoccupied and developed land, sooner or later fire will happen. Fortunately you can prepare for the worst, and it doesn't have to cost a fortune. This highly detailed and practical reference guide will help you live more safely in the red zone and save you time and money along the way, providing multiple methods of risk mitigation along with the financial level of each action. Effectively prepping your land can even enhance the scenery and increase the value of your home. Learn how wildfires begin and behave, how to evaluate your property, what essential tools you'll need and what they will cost, how to prepare your land and home--including tips on how to avoid insurance nightmares--when to stay and fight, when it's time to evacuate, how to clean up after a fire

A Complete Guide to Fire and Buildings

For a brief instant following her spoken pledge; an eloquent silence reigned over the circle of picturesque figures seated about the brightly-blazing camp fire. Then a storm of acclamation rent the still night air; echoing and re-echoing among the giant oaks that hemmed in the company of ardent fire-worshippers. To hear Ruth Garnier repeat the desire of the Torch Bearer was indeed sufficient reason for applause on the part of her comrades of school and Camp Fire. No one of them was more honestly deserving of that honor than sunny; self-reliant Ruth. It was the highest to which she could attain as a Camp Fire Girl until the passing of years should render her eligible to the post of Guardian.
