Few people have read as widely in the field of Canadiana as has John Robert Colombo. The curiosity of this Toronto writer, editor, and anthologist knows few if any bounds when it comes to the lore, literature, history, culture, and character of Canada. He has an inquiring mind and he seems able to find national and even international twists to subjects of interest or importance. Fascinating Canada, his latest book, is the product of over half a century of research, reading, writing, and thinking. Some years ago the author produced a trilogy of question-and-answer books 1,000 Questions about Canada, 999 Questions about Canada, 1,000 Questions about Canada. The first two were published by Doubleday Canada, the third one in 2001 by Dundurn Press. The same format is adapted to the material in the present book, but this time the majority of the questions are short whereas a good many of the answers are quite long discussions of the subjects at hand: concise questions followed by considered answers. Here is a book about the Canadian past, present, and future. The information in Fascinating Canada is organized under four headings (People, Places, Things, Ideas)

and there is a detailed Index for ready reference. This book may serve as a work of popular reference, but it has been written to stimulate inquiry and spark the sense of surprise in the minds of readers who know something about this amazing country but perhaps not as much as the author. Open this book and begin to read ... and match wits with author and researcher John Robert Colombo.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

These are just a few of the intriguing questions asked and answered in The Quirks & Quarks Question Book, the first question and answer book to come out of CBC Radio's enormously popular weekly science program. Quirks & Quarks producers have combed through ten years' worth of archives to find the most puzzling questions — or the most fascinating answers to apparently simple questions — from the program's Question of the Week segment or its once-a-season all-question show. The scientists and researchers with the answers (many of whom updated their answers for the book in light of new research findings) come from all scientific disciplines and all parts of the country. What they have in common is their ability to explain serious, complicated science in layman's terms. This isn't science made simple, but science made understandable. Introduced by the program's host for the past ten years, the genial and ever-curious Bob McDonald, The Quirks & Quarks Question Book has the answers to questions you may never have thought to ask (why does Uranus spin on a different axis from all the other planets in our solar system?) or have spent idle time wondering about (why is there a calm before a storm?). Whether you want to know if you can sweat while you swim or what the view would be like if you could travel at the speed of light, or perhaps you just want to peruse the latest scientific thinking on a wide range of topics, The Quirks & Quarks Question Book has the answer. Quirks & Quarks has been keeping Canadians up to date on the world of science for more than 25 years. Every week, the program presents the people behind the latest discoveries in the physical and natural sciences. The program also examines the political, social, environmental, and ethical implications of new developments in science and technology. Over its lifetime, Quirks & Quarks has won more than 40 national and international awards for science journalism.

The Quirks & Quarks Question Book Dundurn

NAMED A TOP 10 NOVEL OF 2017 BY THE WALL STREET JOURNAL AND VOGUE, A BEST BOOK OF 2017 BY ESQUIRE, HUFFINGTON POST, POP SUGAR, ELECTRIC LITERATURE AND KIRKUS, AND A 2017 NPR GREAT READ. ONE OF DWIGHT GARNER'S TOP BOOKS OF 2017 IN THE NEW YORK TIMES. A NEW YORK TIMES BOOK REVIEW EDITOR'S CHOICE AND A FINALIST FOR THE CHICAGO REVIEW OF BOOKS FICTION AWARD. "Like Margaret Atwood's *The Handmaid's Tale*, [The Answers] is also a novel about a subjugated woman, in this case not to a totalitarian theocracy but to subtler forces its heroine is only beginning to understand and fears she is complicit with." --Dwight Garner, *New York Times* Mary Parsons is broke. Dead broke, really: between an onslaught of medical bills and a mountain of credit card debt, she has been pushed to the brink. Hounded by bill collectors and still plagued by the painful and bizarre symptoms that doctors couldn't diagnose, Mary seeks relief from a holistic treatment called Pneuma Adaptive Kinesthesia—PAKing, for short. Miraculously, it works. But PAKing is prohibitively expensive. Like so many young adults trying to make ends meet in New York City, Mary scours Craigslist and bulletin boards for a second job, and eventually lands an interview for a high-paying gig that's even stranger than her symptoms or the New Agey PAKing. Mary's new job title is Emotional Girlfriend in the "Girlfriend Experiment"—the brainchild of a wealthy and infamous actor, Kurt Sky, who has hired a team of biotech researchers to solve the problem of how to build and maintain the perfect romantic relationship, casting himself as the experiment's only constant. Around Kurt, several women orbit as his girlfriends with specific functions. There's a Maternal Girlfriend who folds his laundry, an Anger Girlfriend who fights with him, a Mundanity Girlfriend who just hangs around his loft, and a whole team of girlfriends to take care of Intimacy. With so little to lose, Mary falls headfirst into Kurt's messy, ego-driven simulacrum of human connection. Told in Catherine Lacey's signature spiraling, hypnotic prose, *The Answers* is both a mesmerizing dive into the depths of one woman's psyche and a critical look at the conventions and institutions that infiltrate our most personal, private moments. As Mary struggles to understand herself—her body, her city, the trials of her past, the uncertainty of her future—the reader must confront the impossible questions that fuel Catherine Lacey's work: How do you measure love? Can you truly know someone else? Do we even know ourselves? And listen for Lacey's uncanny answers.
