The most enjoyable way to learn about an unfamiliar culture is through its stories—especially when they're told in two languages! Korean Stories for Language Learners introduces 42 traditional Korean folktales with bilingual Korean and English versions, presented on facing pages, together with detailed notes and exercises aimed at beginning learners of the language. The book can be used as a reader in first- and second-year Korean language courses or by anyone who wishes to learn about Korean folktales and traditional Korean culture. This elegantly illustrated volume is designed to help language learners expand their vocabulary and to develop a basic familiarity with Korean culture. The stories gradually increase in length and complexity throughout the book as the reader improves their vocabulary and understanding of the language. After the first few stories, the reader is asked to use the vocabulary in speaking and writing exercises. By reading these classic stories, they also are given a window into Korean culture and learn to appreciate the uniqueness of the country—which provides greater motivation to continue learning the difficult language. Cultural notes and discussion questions further reinforce one's understanding of the stories, and bolster one's language skills. A Collection of Expressions Tuttle Publishing

This book is the culmination of educational know-how and systematic grammar organization acquired by the three authors from their experience actually teaching Korean to foreigners in the classroom. In focusing strictly on Korean grammar, this series represents a departure from most current integrated teaching materials, allowing foreign learners to more easily concentrate on grammar in their study of Korean. The authors have included real dialogues and illustrations to make the study of Korean more interesting, especially for those students who have heretofore felt Korean grammar to be difficult. Further, this series equally serves as a general Korean grammar reference that can be used by Korean language instructors both in Korea and abroad who regularly experience the difficulty of teaching Korean grammar first-hand.
