Manufacturing is the backbone of any industrialized nation. Manufacturing and technical staff in industry must know the various manufacturing processes, materials being processed, tools and equipments for manufacturing different components or products with optimal process plan using proper precautions and specified safety rules to avoid accidents.

V&A · A Brief History Of
Wallpaper

Up until 1840 all wallpapers were produced by hand using

the block-printing process that, as we have seen, was labour-intensive and slow. Not surprisingly, manufacturers were keen to find ways of speeding up production and in 1839 the first wallpaper printing machine was patented by Potters & Ross, a cotton printing firm based in Darwen ...
