Do you know what Our Blessed Hope is? Most believers in the Messiah do not. This term is found in Titus 2:13 and is the Biblical name for the Rapture. What most people know about the Rapture is what they have heard other people say. Isn't it time for you to read the relevant Scriptures for yourself? In this short and easy to read booklet, Baruch Korman discusses the primary passages that deal with the Rapture and demonstrates what the Word of God truly states about this wonderful promise from Yeshua (Jesus). There are important questions which demand answers; for example, "Is the last seven years of tribulation all G-d's wrath? What is the Abomination of Desolations and why is this event mentioned in regard to the end? To what end is Yeshua referring when He states that the Gospel of the Kingdom must be proclaimed throughout the world then the end will come? Paul speaks about the Day of Messiah (Christ). Is this the same thing as the Day of the Lord? These questions and more will be addressed in an understandable manner that will leave the reader with a Biblical comprehension of the

Rapture.

"Solving environmental problems, in both developing and industrial countries, appears to be more challenging than merely applying a fee on polluters. The purpose of this book is to show that indirect instruments designed to reduce the scale of output can be important complementary measures in a cost-effective pollution control program. Examples of such instruments are taxes on output or on polluting inputs, called presumptive because their target is the pollution presumed to be associated with the activity. A combination of the two types - those that reduce output and those that reduce emissions per unit of output - can mimic fairly well the effect of an optimal emission fee without the latter's monitoring requirements. A recurring theme throughout the book is that

taxation of fuel use can be a powerful indirect instrument for controlling air pollution because of the association between fuel use and emissions. In sum, the authors advocate taxing a "bad" (pollution) by taxing goods (fuels) as part of a program to address air pollution when monitoring of emissions is prohibitively expensive. Chapter I lays out the authors' basic analytical framework. Chapter II treats the case of mobile-source pollution through an examination of gasoline taxes and regulatory policies in Mexico City. Chapter III addresses point-source pollution and the potential for altering the fuel mix in industries in Indonesia and Chile, based on firm-level data. A general equilibrium model of Indonesia portrays the economywide consequences of changes in fuel taxes. Finally, chapter IV contains some concluding remarks." -- Website.

In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life nourishment or ushers the

reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

Commentary on the Whole Bible Thomas Nelson

The end of the world is coming. From roadside signs to science fiction films, this slogan underscores our society's nervous fascination with the future. Whether it's a giant asteroid, a worldwide plague, or some other global catastrophe, the end of the world is a terrifying prospect—at least for those who have no idea what it will be like. For Christians, however, the end of the world should be anything but dreadful. In fact, it should be something we actually look forward to. Why? Because God has told us how the world will end. And He has assured us that the end of this age will mark the beginning of a new, glorious one in which we will serve and worship Him in sinless perfection. Our eternal hope, as believers, is intimately tied to the end of this world. All of this is laid out in the book of Revelation. Not only is Revelation the inspired Word of God, it is also the only New Testament book that includes a promised spiritual blessing for those who study and apply its message. As such, it is an essential part of every Christian's devotional life. Those who ignore Revelation deprive themselves of a rich treasure of divine truth, and the promised blessings that come from understanding that truth. Join John MacArthur as he explains the book of Revelation in a way that is both doctrinally precise and intensely practical.

It is not meant that he should read it over comfortably,

and then have done with it. No, he is to treat the promise as a reality, as a man treats a check."

The impact of The Late Great Planet Earth cannot be overstated. The New York Times called it the "no. 1 non-fiction bestseller of the decade." For Christians and non-Christians of the 1970s, Hal Lindsey's blockbuster served as a wake-up call on events soon to come and events already unfolding -- all leading up to the greatest event of all: the return of Jesus Christ. The years since have confirmed Lindsey's insights into what biblical prophecy says about the times we live in. Whether you're a church-going believer or someone who wouldn't darken the door of a Christian institution, the Bible has much to tell you about the imminent future of this planet. In the midst of an out-of-control generation, it reveals a grand design that's unfolding exactly according to plan. The rebirth of Israel. The threat of war in the Middle East. An increase in natural catastrophes. The revival of Satanism and witchcraft. These and other signs, foreseen by prophets from Moses to Jesus, portend the coming of an antichrist . . . of a war which will bring humanity to the brink of destruction . . . and of incredible deliverance for a desperate, dying planet.

The "Three Messages of Revelation 14:6-12," which was written by John Nevins Andrews in 1860, is a study of what the symbols of Revelation mean (with emphasis on the two-horned beast). This early Advent book examines the three angel's message of Revelation 14, their timing, and meaning and the role of the United States in Bible prophecy. Chapter include "Time When the Proclamations of Rev. 14 are Made," "The Proclamation of the First Angel," "The Proclamation of the Second Angel," "The Fall of Babylon," "The Proclamation of the Third Angel," "The Two-Horned Beast," "The Work of the Two-Horned Beast," "The Penalty Threatened by the Third Angel," and "Chronology of the Third Angel." The Bible is full of the references to the second coming of the Savior and the events of the great day of God. The language of the inspired writers expresses in the most vivid manner the awful and terrific scenes of that day in which God arises from His place to punish the inhabitants of the earth. God always warns before He sends His judgments. As He warned Sodom and Gomorrah before sending fire and brimstone and the antediluvian world through Noah before the flood, even so today He is sending a message of warning. In "Three Messages of Revelation 14:6-12," author and Biblical scholar John Nevins Andrews presents the three angel's message which is being heralded around the world.

Most evangelical Christians believe that those people who are not saved before they die will be punished in hell forever. But is this what the

---

Bible truly teaches? Do Christians need to rethink their understanding of hell? In the late twentieth century, a growing number of evangelical theologians, biblical scholars, and philosophers began to reject the traditional doctrine of eternal conscious torment in hell in favor of a minority theological perspective called conditional immortality. This view contends that the unsaved are resurrected to face divine judgment, just as Christians have always believed, but due to the fact that immortality is only given to those who are in Christ, the unsaved do not exist forever in hell. Instead, they face the punishment of the "second death"--an end to their conscious existence. This volume brings together excerpts from a variety of well-respected evangelical thinkers, including John Stott, John Wenham, and E. Earl Ellis, as they articulate the biblical, theological, and philosophical arguments for conditionalism. These readings will give thoughtful Christians strong evidence that there are indeed compelling reasons for rethinking hell.
