The game under the tree looked like a hundred others Peters and Judy had at home. But they were bored and restless and, looking for something interesting to do, thought they'd give Jumanji a try. Little did they know when they unfolded its ordinary-looking playing board that they were about to be plunged into the most exciting and bizarre adventure of their lives. In his second book for children, Chris Van Allsburg again explores the ever-shifting line between fantasy and reality with this story about a game that comes startlingly to life. His marvelous drawings beautifully convey a mix of the everyday and the extraordinary, as a quiet house is taken over by an exotic jungle.

A myth-shattering investigation of the true cost of America's passion for finding a better bargain From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt-and almost everywhere in between-America has been transformed by its relentless fixation on low price. This pervasive yet little- examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spot­lighting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box profusion to expose the astronomically high cost of cheap.

In this convincing, crisply written novel, Strasser tackles head-on a very real middle-school predicament--the price one can be tempted to pay for popularity. Referring to herself throughout in the second person, narrator Lauren immediately draws readers into her life as she explains that she and her best friend Tara are eating lunch in that part of the cafeteria she dubs "the realm of the socially inferior," while the popular girls sit at the "Don't-You-Wish-You-Were-Me table." Though she longs to be part of the in-crowd, Lauren lacks the confidence to even attempt to belong; she refuses to wear makeup, for example, because she fears that her classmates would "snigger and say you were trying to be an A-list girl. It's safer not to try." The author carefully tracks the girl's growing self-confidence after Celeste, an outgoing new girl who instantly becomes a member of the elite group, befriends Lauren and convinces her to run with her for co-treasurer in their class elections. Unlike Lauren, basking in the glow of her new popularity, readers will pick up on the numerous clues that the manipulative, plotting Celeste is hardly trustworthy. Strasser caps his story with a believable denouement, in which Lauren learns a painful lesson about the value of genuine friendship and of confidence that comes from

within.
