Boric acid - Wikipedia  
Boric acid ophthalmic (for the eyes) is used as an eye wash to cleanse or irrigate the eyes.

Boric acid provides soothing relief from eye irritation, and helps remove pollutants from the eye such as smog, chlorine, or other chemicals. Boric acid ophthalmic may also be used for other purposes

not listed in this medication guide.

Boric acid is applied in a very dilute solution as an eye wash. Dilute boric acid can be used as a vaginal douche to treat bacterial vaginosis due to excessive alkalinity, as well as candidiasis due to non-albicans candida. As an antibacterial compound, boric acid can also be used as an acne treatment.
