Enthusiastic trainee farmer
Jeremy Clarkson made just
£ 144 in his first year at
Diddy Squat Farm. This
year he's determined to do
better. Not because he now
knows what he's doing. But

because he's fed up of getting stick from Kaleb. Yet farming continues to be a challenge. For instance . . . Loading a grain trailer was more demanding than flying an Apache gunship? . Cows were more dangerous than motor-racing? . It's easier to get planning permission to build a nuclear plant than to turn a barn into a restaurant? Jeremy's always got a plan. Loads of them. Often cunning. Not always greeted with wild enthusiasm by Kaleb and Cheerful Charlie, however . . . _____

It's been another memorable year on Diddly Squat Farm - will the chickens finally come home to roost? ----
Welcome back to Clarkson's Farm. So, that went well . . .
The spring barley crop failed. Just like the oil seed rape. And the durum wheat. Then the oats turned the colour of a hearing aid and the mushrooms went mouldy. Farming sheep, pigs

and cows was hardly more lucrative. Jeremy would be better off trying to breed ostriches. But in the face of uncooperative weather, the relentless realities of the agricultural economy, bureaucracy, a truculent local planning department and the world's persistent refusal to recognise his ingenuity and genius, our hero's not beaten yet. Not while the farm shop's still doing a roaring trade in candles that smell like his knacker hammock, he isn't. On the face of it, the challenges of making a

success of Diddly Squat are enough to have you weeping into your (Hawkstone) beer, but misery loves company and in girlfriend Lisa, Farm Manager Kaleb, Cheerful Charlie and Gerald his Head of Security Jeremy knows he's got the best. And it's hard for a chap to feel too gloomy about things when there's a JCB telehandler, a crop-spraying hovercraft and a digger in the barn. Because as a wise man* once said, 'there's no man alive who wouldn't have fun with a digger . . .' *Jeremy Number

For Crying Out Loud
Penguin UK

Jeremy Clarkson, it has to be said, sometimes finds the world a maddening place. And nowhere more so than from behind the wheel of a car, where you can see any number of people acting like lunatics while in control (or not) of a ton of metal. In *Born to be Riled*, Clarkson takes a look at the world through his windscreen, shakes his head at what he sees

and then puts the boot in. Among other things, he explains: why Surrey is worse than Wales how crossing your legs in America can lead to arrest the reason cable TV salesmen must be punched that divorce can be blamed on the birth of Jesus Raving politicians, pointless celebrities, ridiculous personalities and the Germans all get it in the neck, together with the stupid, the daft and ludicrous in a tour de force

of comic writing guaranteed to have Clarksons postman wheezing under sackfuls of letters from the easily offended.

The Penguin Dictionary of Modern Humorous Quotations Penguin UK Follows Eva Thorvald's life journey, rooted in the foods of Minnesota and growing into a legendary, sought-after chef. *Diddly Squat* Bloomsbury Publishing Clarkson is back

with a brand new book of hilarious stories and observations about our gone-wrong world. _____

The contributing award-winning and best-selling middle-grade authors include Holly Goldberg Sloan, Kelly Starling Lyons, Tommy Greenwald, Wendy Mass, Bruce Hale, Jacqueline West, Ellen Yeomans, Vince Evans, Nate Evans, Sarah Prineas, Steve Sheinkin, Shaun David Hutchinson, Don Tate, Varian Johnson, Howard Cruse, Meg Medina, C. Just about any topic under the sun can inspire witty remarks. the "Never-Isles" from which there appears to be no escape. In the course of his adventures he meets the pirates Smee and Starkey, falls in love with the enchanting Tiger Lily, adopts an oddly affectionate crocodile, and befriends a charming boy named Peter—who teaches him to fly. He battles monsters, fights in mutinies, swims with mermaids, and eventually learns

both the sad and terrible tale of his mother's life and the true story of his father's disappearance. Like Gregory Maguire's *Wicked*, Hook's Tale offers a radical new version of a classic story, bringing readers into a much richer, darker, and enchanting version of Neverland than ever before. The characters that our hero meets—including the terrible Doctor

Uriah Slinque and a little girl named Wendy—lead him to the most difficult decision of his life: whether to submit to the temptation of eternal youth, or to embrace the responsibilities of maturity and the inevitability of his own mortality. His choice, like his story, is not what you might expect.

Diddly Squat: Pigs
Might Fly Penguin UK
Friedrich Hölderlin's only novel, *Hyperion*

(1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure as both a lover and a revolutionary, Hyperion assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, Hyperion preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskell conveys the beautiful music and rhythms of Hölderlin's language to an English-speaking reader.

Round the Bend
Random House
What Could Possibly Go Wrong... is the

sixth book in Jeremy Clarkson's bestselling *The World According to Clarkson* series. No one writes about cars like Jeremy Clarkson. While most correspondents are too busy diving straight into BHP, MPG and MPH, Jeremy appreciates that there are more important things to life. Don't worry, we'll get to the cars. Eventually.

But first we should consider:

- The case for invading France
- The overwhelming appeal of a nice sit-down
- The inconvenience of gin and tonic
- Why clothes are no better than ice cream
- Spot-welding with the Duchess of Kent
- And why Denmark is the best place in the world

Armed only with conviction,

curiosity, enthusiasm and a stout pair of trousers, Jeremy hurtles around the world - along motorway, autoroute, freeway and autobahn - in search of answers to life's puzzles and ponderings without forethought or fear for his own safety. What, you have to ask, could possibly go wrong... Praise for
