First, you can use it as a support  
for another water heater. Second,  
you can use it on its own in your  
sink. Lastly, you can have it as  
your buffer for your tankless  
water heater. Many Bosch water  
heater reviews say that this water  
heater is perfect for small washing  
machines, showers in RV  
campers, and single showers.  
However, you should consider  
how long you will use the hot  
water.

heater there will be no more frustrations of being sandwiched in cold water when showering or waiting for the water to heat for long. Water warms up as soon as you turn the knob, ensuring the water is always warm for use. You can be sure of a minimum of 0.5 gallons of water per minute at any given time with a Bosch tankless water heater.
