The increasing demands for internal combustion engines with regard to fuel consumption, emissions and driveability lead to more actuators, sensors and complex control functions. A systematic implementation of the electronic control systems requires mathematical models from basic

design through simulation to calibration. The book treats physically-based as well as models based experimentally on test benches for gasoline (spark ignition) and diesel (compression ignition) engines and uses them for the design of the different control functions. The main topics are: - Development steps for engine control - Stationary and dynamic experimental modeling - Physical models of intake, combustion, mechanical system, turbocharger,

exhaust, cooling, lubrication, drive train - Engine control structures, hardware, software, actuators, sensors, fuel supply, injection system, camshaft - Engine control methods, static and dynamic feedforward and feedback control, calibration and optimization, HiL, RCP, control software development - Control of gasoline engines, control of air/fuel, ignition, knock, idle, coolant, adaptive control functions - Control of diesel engines, combustion models, air flow

and exhaust recirculation control, combustion-pressure-based control (HCCI), optimization of feedforward and feedback control, smoke limitation and emission control This book is an introduction to electronic engine management with many practical examples, measurements and research results. It is aimed at advanced students of electrical, mechanical, mechatronic and control engineering and at practicing engineers in the field of combustion engine and

automotive engineering. La Gringa is about a young woman's search for her identity. Maria Elena Garcia goes to visit her family in Puerto Rico during the Christmas holidays and arrives with plans to connect with her homeland. Although this is her first trip to Puerto Rico, she has had an intense love for the island, and even majored in Puerto Rican Studies in college. Once Maria is

in Puerto Rico, she realizes that Puerto Rico does not welcome her with open arms. The majority of the Puerto Ricans on the island consider her an American – a gringa – and Maria considers this a betrayal. If she's a Puerto Rican in the United States and an American in Puerto Rico, Maria concludes that she is nobody everywhere. Her uncle, Manolo, spiritually teaches her that identity isn't based on superficial and external definitions, but rather is an essence that she has had all along in her heart.
