The 2008 Pre-Budget Report presents updated assessments and forecasts of the economy and public finances, and reports on how in the face of major global economic shocks the Government intends to support the economy, businesses and households through these uncertain times while delivering its long-term goals. Measures announced include: temporarily reducing the Value Added Tax (VAT) rate to 15 per cent from 1 December 2008 to 31 December 2009; bringing forward £ 3 billion of capital spending from 2010-11 including introducing a green stimulus supporting low carbon growth and jobs; introducing a new additional higher rate of income tax of 45 per cent for those with incomes above £ 150,000 from April 2011; increasing national insurance contributions by 0.5 per cent from April 2011; increasing

alcohol and tobacco duties; a two pence per litre increase in fuel duty from 1 December). Immediate action to help those individuals and businesses most affected by the economic downturn include: increases in the income tax personal allowance; bringing forward the increase in Child Benefit; increases of the Child Tax Credit and a payment of £ 60 to all pensioners; help through mortgage rescue and Support for Mortgage Interest schemes for eligible homeowners in difficulty and a commitment from major mortgage lenders not to initiate repossession action within at least three months of an owner-occupier going into arrears; an additional £ 1.3 billion to support for the unemployed to find a new job; measures to help small and medium-sized enterprises facing credit constraints; a new HMRC Business Payment Support Service to allow businesses in temporary financial difficulty to pay their HMRC tax bills on a timetable they can afford; and more generous tax relief for businesses now making losses and the modification of a number of planned tax reforms, including vehicle excise duty, air passenger duty, and the deferral of the increase in the small companies' rate of corporation tax.

This thesis presents research on novel X-ray imaging methods that improve the study of specimens with small density differences, revealing their inner structure and density distribution. Exploiting the phase shift of X-rays in a material can significantly increase the image contrast compared to conventional absorption imaging. This thesis provides a practical guide to X-ray phase-contrast imaging with a strong focus on X-ray speckle-based imaging, the most recently developed phase-sensitive method. X-ray speckle-based imaging only requires a piece of abrasive paper in addition to the standard X-ray imaging setup. Its simplicity and robustness combined with the compatibility

with laboratory X-ray sources, make it an ideal candidate for wide user uptake in a range of fields. An in-depth overview of the state of the art of X-ray speckle-based imaging and its latest developments is given in this thesis. It, furthermore, explores a broad range of applications, from X-ray optics characterisation, to biomedical imaging for 3D virtual histology and geological studies of volcanic rocks, demonstrating is promising potential. Moreover, the speckle-based technique is placed in the context of other phase-sensitive X-ray imaging methods to assist in the choice of a suitable method, hence serving as a guide and reference work for future users.

*Adobe Illustrator: A Complete Course and Compendium of Features* is your guide to building vector graphics, whether you're creating logos, icons, drawings, typography, or other illustrations—and regardless of their destination: print, web, video, or mobile. First, with a complete Course that includes a set of projects and lessons derived from Adobe Certified Instructor Jason Hoppe, you will learn the procedures needed to use Illustrator effectively and professionally. Dozens of lessons are included that can be applied to any graphics you have in mind. Through these step-by-step lessons, you'll be exposed to all of Illustrator's features in practical contexts and its best practices for optimal workflows.

To complete the Course, we'll supply lesson documents and their assets to download. These can even serve as starting points for your own projects.

Then, for greater depth of knowledge and subsequent reference, you'll use the Compendium to uncover more of the "how" and "why" of Illustrator. With each topic easy to access, you can find and explore all of Illustrator's key features and concepts in depth. With cross references between the Course and Compendium, the two parts of the book complement each other perfectly. Best of all, when the lessons in the Course are done, the Compendium will continue to serve for months and years to come.

Learn step by step how to:

- Draw basic shapes and lines

- Build graphics using Illustrator's deep and diverse toolset
- Create complex icons using the Pathfinder and Shape Builder
- Use color with predictable and harmonic results
- Work effectively with type
- And much more!

This is the autobiography of Ivor Goolding and a tale of the changes in rural Cheshire. Born in Sale, Manchester in 1937, the story is about growing up in Cheshire villages and towns from the early 1940's to the early 1960's. His father being a policeman, plodding beat for over 25 years, retiring at Ellesmere Port as a Sergeant. A strict disciplinarian and prone to very quick mood changes. Ivor joined Rolls Royce as an apprentice in engineering eventually finishing at Castrol Oil, Ellesmere Port. After completing his apprenticeship, it was straight into the Army for National service with The Royal Welch Fusiliers in 1959-61 and a spell as a professional footballer before setting to family life. This is a gentle tale set in changing times.
