You've purchased a Bose 901 equalizer by itself or as a part of a Bose 901 speaker system, and now it's time to set it up. How you go about connecting the Bose 901-series equalizer to your stereo system varies slightly depending on whether you intend to use it in a two-speaker or surround sound setup.

Setting up your system - Bose Corporation Part One “ No highs, no lows, it must be Bose. ” And so the story goes in the

wubbulous world of high-end audio. Other than using a green sharpie to get better CD sound, or that guy that calls you on the phone and osmotically makes your system sound better, no greater myth exists in audio today than that of the Bose 901 speakers.

Let me start out saying I'm not an expert on critical listening. Nor would I deem myself an audiophile. However, I needed to share my bose 901 series V set up and then fade away. I looked hard for advice like I'm going to give here and didn't find it. Consequently, it took me weeks of spurious reading to figure out how to power my speakers.

Originally the 901's

were to be setup mostly at ear level when seated. The setup for the past 30 years has been tied to these short stands, or hung from the ceiling far off axis. There is even a recommendation for matching pairs of floor and ceiling 901's in some manuals, something I'm sure a few die hards have tried.
