Updating your CineMate system requires a blank USB drive. This update method assumes you do not have a SoundTouch wireless adapter connected to your system. If you have a SoundTouch wireless adapter connected to

your system, see the instructions below for updating CineMate systems using the SoundTouch wireless adapter. *Manual For Bose Cinemate Remote | Best Product Reviews* Using the right device codes, you can set up your new universal remote to control the video devices you want to use with your speaker system. For the remote setup procedure, see

your owner's guide. To find available codes for a device, search the listing under the appropriate device type heading. [Bose Cinemate Universal Remote Manual](#) Using the remote to control the CineMate system. When you point the remote control at the interface module and press a button, the green LED on the interface module flashes. Press On-Off to turn on the CineMate

system. Press again to turn the system off. Press Volume Up to raise the volume. When maximum volume is reached, the green LED on the interface module flashes twice.

The Interface module receives commands from the universal remote control and provides audio input connections for the CineMate™ speaker system. The remote

control commands allow you to turn the speakers on, change the volume, and mute or turn off the speaker system.
