The current exponential growth in graph data has forced a shift to parallel computing for executing graph algorithms. Implementing parallel graph algorithms and achieving good parallel performance have proven difficult. This book addresses these challenges by exploiting the well-known duality between a canonical representation of graphs as abstract collections of vertices

and edges and a sparse adjacency matrix representation. This linear algebraic approach is widely accessible to scientists and engineers who may not be formally trained in computer science. The authors show how to leverage existing parallel matrix computation techniques and the large amount of software infrastructure that exists for these computations to implement efficient and scalable parallel graph algorithms. The benefits of this approach are reduced algorithmic complexity, ease of implementation, and improved performance.

Monoean King, had risen far from his ignominious origins, becoming both a Bowrank Commander and a member of the Crown's Black Guard. But when cursed black magic took his wife and his honor away, he fought past his own despair and grief and carved out a new life in Akrasia. His bloody, unlikely path, chronicled in *Exile: The First Book of the Seven Eyes*, led him to a new love—and a throne. Draken has seen too much blood . . . the blood of friends and of enemies alike. Peace is what he wants. Now he must leave his wife and unborn child in an attempt to forge an uneasy truce between the Monoean King and the kingdom of Akrasia. The long bloody shadow of Akrasia's violent past hangs over his efforts like a shroud. But there are other forces at work. Peace is not something everybody wants . . . not even in the seemingly straightforward kingdom of Draken's birth. Factions both known and unknown to Draken vie to undermine his efforts and throw the kingdom into civil war. Forces from his days in the Black Guard prove to be the most enigmatic, and a bloody tide threatens to engulf Draken's every step. The last chapter of the dimension-spanning Daedalus series brings the 19th and 22nd centuries together for an explosive finale in the jungles of Venus! In the year 2135, dangerous alien life forms freed in the destruction of Saturn's moon Enceladus are making their way towards Earth. A task force spearheaded by Lt. Cmdr. Shaila Jain is scrambling to beat them there while simultaneously trying to save crewmember Stephane Durand, who was infected during the mission to Saturn and is now controlled by a form of life intent on reopening a transdimensional rift and

destroying the human race. But Jain doesn't realize that the possessed Stephane has bigger plans, beaming critical data to other conspirators suspiciously heading not for Earth, but for Venus? In 1809? a Napoleonic era far different from our own? the French have occupied England with their Corps Eternelle, undead soldiers risen through the darkest Alchemy. Only the actions of Lord Admiral Thomas Weatherby and the Royal Navy have kept the French contained to Earth. But the machinations of old enemies point to a bold and daring gambit: an ancient weapon, presumed lost in the jungles of Venus. Now, Weatherby must choose whether to stay and fight to retake his homeland or pursue the French to the green planet. And Shaila must decide if it's possible to save the man she loves, or if he must be sacrificed for the good of two dimensions. In the dark, alien jungles of Venus, humanity's fate in both dimensions

A small-town attorney takes on prejudice and corruption in this powerful legal thriller. Small-town lawyer Bocephus Haynes comes home late one night to find District Attorney General Helen Lewis waiting for him. Her ex-husband has just been killed. She's about to be arrested for his murder. And she wants Bo to represent her.

There's a lot working against them. Just before his death, Helen's ex-husband threatened to reveal a dark secret from her past. Bo has been in a tailspin since his wife's death. What's more, his whole life has been defined by a crime committed against his family, and he continues to face prejudice as the only African American litigator in Pulaski, Tennessee. Bo's back is against the wall, and Helen resigns herself to a dismal fate--but a stunning discovery throws everything into chaos. There's a chance for justice, but to achieve it, the cost might be too much for Bo to bear.

It's Aya's wedding day. Her third. Her current two husbands aren't too fussed. In a society in which there are few women, that's just what

happens. But as the household prepares for the wedding feast, a stranger arrives – one who threatens to challenge everything they believe in. Against a backdrop of modern rural India, Sharmila Chauhan weaves an extraordinary tale of love and wonder. From the preparation of luxury food and the sacrifice of the lamb to the dressing of the bride and the dance to end all dances, this will be an exuberant, joyful and challenging piece of theatre. 'In parts of India, polyandry has become a necessity.

Gendercide, as a consequence of the ancient preference for boys, the modern desire for smaller families and the increasing availability of ultrasound techniques to detect the gender of a baby still in the womb means that the number of females is declining. I wrote *The Husbands* both as a response to this but also as an exploration of the complexity of love, intimacy and trust between one woman and three men where gender differences and

expectations are amplified. In a sense this play is as much a warning as an allegory for the fate of women in The West today.' - Sharmila Chauhan

Law professor Thomas Jackson McMurtrie literally wrote the book on evidence in the state of Alabama. But when a power-hungry colleague uses a recent run-in between McMurtrie and headstrong student Rick Drake to end his career, he is left unsure what to do next. Meanwhile, a devastating trucking accident in Henshaw, Alabama, leaves a young family dead.

Drake, now a fledgling lawyer, takes the case against the freight carrier and soon begins to uncover the truth behind the tragedy that is buried in a tangled web of arson, bribery, and greed. On the eve of the trial and with his case unraveling in the midst of a dangerous cover-up that threatens to silence his star witnesses, Drake realizes that only his estranged mentor, Professor McMurtrie, can help him now. With everything to lose and only justice to gain, will McMurtrie and Drake overcome bad blood to defeat a ruthless adversary? Can the Professor turn back the clock and recover all that he's lost?

Aliens are coming! A year after young engineering student Rip Cantrell discovered the first flying saucer buried deep in the sands of the Sahara, another saucer is brought up from the bottom of the Atlantic. The recovery is funded by a pharmaceutical executive who believes that the saucer holds the key to an anti-aging drug formula that space travelers would need to voyage between galaxies. But one of his technicians, Adam Solo, an alien marooned on Earth for a thousand years, steals the saucer, hoping to summon a starship to rescue him. Unfortunately, the stolen saucer has damaged communications gear. Solo goes to Rip Cantrell and his partner, ex-Air Force test pilot Charlotte "Charley" Pine, and Rip's uncle Egg, for help

in summoning a starship. Meanwhile, as a terrified world fearful of space invaders approaches meltdown, big pharma moguls and their thugs are hot on the trail of the foursome. In a world turned upside down, it may be the arriving aliens who offer limitless possibilities. Rip and Charley face an incredible decision: Do they dare leave the safety of earth to travel into the great wilderness of the universe? Full of UFO's, futuristic technology, edge-of-your-seat flying scenes and unforgettable characters, human and otherwise, Stephen Coonts' *Savage Planet* is classic storytelling at its best . . . and pure, unadulterated fun.
