The Book Irrigation And Water Resources Engineering Deals With The Fundamental And General Aspects Of Irrigation And Water Resources Engineering And Includes Recent Developments In Hydraulic Engineering Related To Irrigation And Water Resources Engineering. Significant Inclusions In The Book Are A Chapter On Management (Including Operation, Maintenance, And Evaluation) Of Canal Irrigation In India, Detailed Environmental Aspects For Water Resource Projects, A Note On Interlinking Of Rivers In India, And Design Problems Of Hydraulic Structures Such As Guide Bunds, Settling Basins Etc. The First Chapter Of The Book Introduces Irrigation And Deals With The Need, Development And Environmental

Aspects Of Irrigation In India. The Second Chapter On Hydrology Deals With Different Aspects Of Surface Water Resource. Soil-Water Relationships Have Been Dealt With In Chapter 3. Aspects Related To Ground Water Resource Have Been Discussed In Chapter 4. Canal Irrigation And Its Management Aspects Form The Subject Matter Of Chapters 5 And 6. Behaviour Of Alluvial Channels And Design Of Stable Channels Have Been Included In Chapters 7 And 8, Respectively. Concepts Of Surface And Subsurface Flows, As Applicable To Hydraulic Structures, Have Been Introduced In Chapter 9. Different Types Of Canal Structures Have Been Discussed In Chapters 10, 11, And 13. Chapter 12 Has Been Devoted To Rivers And River Training Methods. After Introducing Planning Aspects Of Water Resource Projects In Chapter 14, Embankment Dams, Gravity Dams And Spillways Have Been Dealt With, Respectively, In Chapters 15, 16 And 17. The Students Would Find Solved Examples (Including Design Problems) In The Text, And Unsolved Exercises And The List Of References Given At The End Of Each Chapter Useful.

This is the second book in
The Great Mental Models
series and the highly
anticipated follow up to
the Wall Street Journal
best seller, Volume 1:
General Thinking
Concepts. We tend to
isolate the things we know
in the domain we learned
it. For example: What
does the inertia of a rolling
stone have to do with
perseverance and being
open minded? How can
the ancient process of
steel production make you
a more creative and
innovative thinker? What
does the replication of our
skin cells have to do with
being a stronger and more
effective leader? On the
surface, these concepts
may appear to be
dissimilar and unrelated.
But the surprising truth is
the hard sciences
(physics, chemistry, and
biology) offer a wealth of
useful tools you can use
to develop critically
important skills like: *
Relationship building *
Leadership *
Communication *

Creativity * Curiosity *
Problem solving * Decision-
making This second
volume of the Great
Mental Models series
shows you how to make
those connections. It
explores the core ideas
from the hard sciences
and offers nearly two
dozen models to add to
your mental toolbox. You'll
not only get a better
understanding of the
forces that influence the
world around you, but
you'll learn how to direct
those forces to create
outsized advantages in the
areas of your life that
matter most to you.

Hypertension remains a
leading cause of disability
and death worldwide. Self-
monitoring of blood
pressure by patients at
home is currently
recommended as a
valuable tool for the
diagnosis and
management of
hypertension.
Unfortunately, in clinical
practice, home blood
pressure monitoring is
often inadequately
implemented, mostly due
to the use of inaccurate
devices and inappropriate
methodologies. Thus, the

potential of the method to improve the management of hypertension and cardiovascular disease prevention has not yet been exhausted. This volume presents the available evidence on home blood pressure monitoring, discusses its strengths and limitations, and presents strategies for its optimal implementation in clinical practice. Written by distinguished international experts, it offers a complete source of information and guide for practitioners and researchers dealing with the management of hypertension.

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his

animal form to let off steam. Then his bad day turns into a bad night- while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future- not with his bizarre secret- yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

This detailed volume presents a comprehensive compendium of clinical metabolomics protocols covering LC-MS, GC-MS, CE-MS, and NMR-based clinical metabolomics as well as bioinformatics and study design considerations. The methodologies explored here form the core of several very promising initiatives evolving around personalized health care and precision medicine, which can be seen as complimentary to the field of clinical chemistry and aid the aforementioned field with novel disease markers and diagnostic

patterns. Written for the highly successful Methods in Molecular Biology series, chapters include brief introductions to their topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Authoritative and practical, Clinical Metabolomics: Methods and Protocols aims to serve as the basis for successful communication between scientists from several fields, including chemists, biologist, bioinformaticians, and clinicians, ultimately leading to effective study design and completion.

Theatre-Rites are regarded as pioneers in the field of object-led and site-specific performance, creating ground-breaking work for family audiences since 1995. This book marks the company's 25th anniversary, offering the first in-depth exploration of artistic director Sue Buckmaster's visionary practice, in which anything can be animated. This book draws on original research, including five years of in-depth interviews between its authors, images from Theatre-Rites' archive and Buckmaster's private collection, detailed observations from the company's professional

training workshops and personal reflections on past productions. A timely and compelling advocacy for the importance of high-quality experimental arts provision for young audiences is made, distilling learning from decades of the company's professional activities to motivate and empower the next generation of object-led theatre-makers. Theatre-Rites: Animating Puppets, Objects and Sites is an invaluable resource for any puppeteer, actor, dancer, visual artist, poet or student interested in expanding their understanding of how to incorporate puppetry and/or symbolic objects as metaphors in their work. Clinical Metabolomics Springer Science & Business Media Author Trenton McGee, 4x4 suspension expert and host of Outdoor Channels Off-Road Adventures, explains 4x4 suspension systems in an easy-to-understand manner. What happens when the legacy of a father collides with the dreams of his son? Widow Jeeto Gill has spent her life working hard and making sacrifices for her children. Now she looks forward to going back to her land in the Punjab, eating saag and roti on a verandah and letting her tired eyes rest on green fields. Her son Pal seems to have it all but he's restless. He's got big plans for his Daddy's business and a taste for Johnny Walker Black Label. However his kind-hearted wife Liz has her own ideas about what's best. Meanwhile Pal's sharp-tongued sister Cookie runs the tackiest beauty salon in town and harbours a dark secret. When their cousin's destitute wife, Reema, arrives from back home, the Gills propose to take care of her. Little do they know that her arrival will change the course of their family's destiny forever. *Cancer Survival in Developing Countries* Bookpal Breast cancer remains a disease of considerable public health importance worldwide, with over 800,000 new cases

diagnosed globally each year. Considerable energy is currently being spent by researchers to further our understanding of this complex disease, however, keeping up with all of the new data is a real challenge given the sheer volume of information that becomes available on a daily basis. The purpose of this book would be to provide a comprehensive review of breast cancer epidemiology, covering the topics of disease burden, etiology, risk factors, prevention, early detection/screening, treatment, and outcomes. The book would be a single comprehensive source of the most recent information on breast cancer epidemiology, and it would serve as a valuable resource for breast cancer researchers across disciplines regardless of what stage of their career they are in. To the knowledge of the editor, no such resource is currently available.

Snookered probes into the lives of young Muslim men and their fragile masculinity, burdened by cultural expectations yet charged with personal dreams. In a volatile political climate, Ishy Din opens a timely window into a strand of British Muslim life that often remains unseen. The plot follows four friends who, every year, meet on the

anniversary of their mate's death for a game of pool and a few drinks. As they excavate the past and measure their own lives, secrets are revealed and allegiances shift as quickly as the drinks are downed. Can they put to rest their guilt over the untimely death of their friend? And will their friendship survive the final betrayal? One of the very few plays written both by and about British Muslims, Snookered explores their camaraderie, life decisions, and their self identity within their close-knit Muslim community of extended families and network of friends. The sharp, pace-filled dialogue captures the Punjabi-English urban patois that is currently developing in northern towns but is rarely seen onstage. The result is that the characters are both alive and relevant, and moments of sharp wit collide with emotionally searing exchanges. Developed by the theatre company Tamasha, whose manifesto is to explore British Asian perspectives and identities, Snookered is unafraid to feature difficult

and significant themes such as religion, drug addiction, misogyny, poverty and racism. Against this backdrop, Snookered is first and foremost a psychologically detailed but razor-sharp depiction of young men finding their paths in life, whilst navigating what it means to be young, British and Muslim.

A dual language edition in English and French. The genocide in Rwanda shocked the world. Back then, Ery Nzaramba was only a teenager and his family's escape to Europe turned him into a "survivor". How should he now respond to questions about who he is and where he comes from? In this autobiographical one-man play, performed to acclaim on the Edinburgh Festival Fringe, the author journeys back to his Rwandan childhood. With the help of a cassette player, he brings to life nearly a dozen characters, exploring memories of kinship, cultural attitudes and personal identity. Both funny and poignant, the play highlights not only the intolerance that can breed

violence and war but also the importance of power and privilege in the struggle for survival. Le génocide au Rwanda a choqué le monde. À l'époque, Ery Nzaramba était un adolescent. Après que sa famille se fut échappé en Europe, il est devenu un « survivant ». Désormais, que doit-il répondre à des questions sur qui il est et d'où il vient? Dans ce one-man show autobiographique, salué par la critique lors de sa présentation au Festival d'Édimbourg, l'auteur retourne vers son enfance au Rwanda. Accompagné d'un lecteur cassette, il donne vie à une bonne douzaine de personnages, explorant souvenirs de famille et d'affinités, attitudes culturelles et identité. À la fois poignante et pleine d'humour, la pièce met en lumière non seulement l'intolérance qui peut engendrer violence et guerre, mais aussi l'importance du privilège dans la lutte pour la survie.

ERY NZARAMBA Ery Nzaramba left Rwanda to settle in Belgium in 1994. Ten years later he moved to the UK for an acting career. In 2014 Ery started working with director Peter Brook and long-time collaborator Marie-Hélène Estienne, featuring in world tours of *Battlefield* and *The Suit*. Ery has been awarded two Grants for the Arts by Arts Council England and an Arvon Grant for his writing. He has written and directed short films; *Split/Mixed* is his first piece written for theatre. He wrote the first draft in 2013 and was invited to perform it in New York, Berlin, and Belfast. The play continued to be developed and its current version premiered to critical acclaim at the Edinburgh Fringe Festival in 2016. "Every time someone asks where I'm from, it's a reminder of how lucky and privileged I've been. In 1994 Rwanda was in the news for all the wrong reasons. It was being torn apart by a civil war and a genocide. Unlike millions of others who couldn't, my family escaped. Because we could. And we got all the support in the world because we were "refugees". But were we, really? Would I be able to look in the eye of one of the other millions of Rwandans who couldn't leave the country and say "I'm a refugee"? I've lived in Europe for nearly a quarter of a century now, and though I'm no longer a refugee, that question has continued to haunt me. So I decided to write *Split/Mixed*."

Praise for his work: "Hilarious, harrowing and acutely moving...[An] essential, coruscating work"
