Supreme Court Justice Sonia Sotomayor tells her own story for young readers for the very first time! As the first Latina Supreme Court Justice, Sonia Sotomayor has inspired young

people around the world to reach for their dreams. But what inspired her? For young Sonia, the answer was books! They were her mirrors, her maps, her friends, and her teachers. They helped her to connect with her family in New York and in Puerto Rico, to deal with her diabetes diagnosis, to cope with her father's death, to uncover the secrets of the world, and to dream of a future for herself in which anything was possible. In *Turning Pages*, Justice Sotomayor shares that love of books with a new generation of readers, and inspires them to read and puzzle and dream for themselves. Accompanied by Lulu Delacre's vibrant art, this story of the Justice's life shows readers that the world is full of promise and possibility--all they need to do is turn the page. Praise for *Turning Pages*: * "A sincere and insightful autobiography that also demonstrates the power of the written word. A winning addition to libraries that serve young readers." --School Library Journal, starred review "A personal and appealing book made to inspire." --Booklist "A thoughtful introduction to both the power of reading and an inspiring role model." --Kirkus Reviews "This book would be great as a read-aloud for class discussions of the Supreme Court, or United States government, or of important people in public service. It would also be good for independent reading by students interested in biographies or political figures." --School Library Connection

In a three-story house with a

shop down below, lived the world's finest hat maker, Madame Chapeau. Like the Lady herself, all her hats were refined. Brilliantly singular. One of a kind. So begins the tale of a lonely hat maker who matches customers to the perfect hat but lacks her own perfect match in life. Once a year, on her birthday, Madame Chapeau ventures out in her favorite bonnet to dinner. This time, a crow snatches her hat and flies away. Mon dieu! As she chases the crow through the streets of Paris, a baker, a policeman, a cowboy, and others offer her their own hats to wear. None of them are quite right, though, until one special little girl offers her a hat "knitted with love and [her] best birthday wish." From the bestselling team behind *Iggly Peck*, *Architect* and *Rosie Revere, Engineer* comes this delightful and very stylish story about love, community, and friendship, with some fancy hats thrown in for good measure. Praise for *Happy Birthday, Madame Chapeau* "Beauty carries the bounces and lilts to the very last page. Roberts' colorful, exaggerated hats (many of which are modeled on real designs) whimsically adorn the multicultural Parisian public." --Kirkus Reviews

Vitruvius, the Ten Books on Architecture The ESL/ELL Teacher's Survival Guide

This book juxtaposes superdiversity with the reality of English-centricity in the United States, set against the long-standing challenges regarding migration and language policy in the US, most recently underlined by Donald Trump ' s 2016 election win and subsequent aggressive and partially successful attempts to limit migration. The book explores the history, policies, and practices of an adolescent newcomer program in Central Ohio, in the US Midwest, that seeks to provide an equitable and engaging education to its students. It addresses, on the one hand, positive, progressive institutional responses, including an embrace of translanguaging and a willingness to acknowledge and build on students ' languacultural backgrounds. On the other hand, the book explores the effects of inconsistent, inefficient and sometimes nonsensical patterns in these responses. The book analyzes student outcomes and argues that, although some students are well-served by the program, tensions in the program lead to uneven, and even troubling, behavior and results, ranging from poor academic performance to dropping out. Finally, the book addresses ongoing evolutions and debates to the program and their potential to realize the program's aspirations.

"Doctor De Soto, the dentist, did very good
work." With the aid of his able assistant,
Mrs. De Soto, he copes with the toothaches
of animals large and small. His expertise is
so great that his fortunate patients never feel
any pain. Since he's a mouse, Doctor De
Soto refuses to treat "dangerous"
animals--that is, animals who have a taste
for mice. But one day a fox shows up and
begs for relief from the tooth that's killing
him. How can the kindhearted De Sotos
turn him away? But how can they make
sure that the fox doesn't give in to his baser
instincts once his tooth is fixed? Those
clever De Sotos will find a way. William
