This book will explain this process. In an easy-to-understand writing style, Gronlund will show you the fundamentals that will help develop a value proposition that will excite customers. Branding is all about creating a message or an impression that makes an impact and creates a rational and emotional connection with a customer. Forming a bond of trust and comfort will build brand equity (i.e., how people value your brand) and customer loyalty. We are living in a dynamic, transformative global economy with mind-boggling advances in technology. Managers today can easily become preoccupied with social media vehicles and the innovative features of electronic devices, and hence neglect the importance of the content or the message. Adhering to the core elements of positioning and branding will help them develop more emotionally rich and powerful content. And B2B managers will better understand and discover the real value of good branding, so that their marketing and sales communications will go beyond product features and emphasize relevant benefits that will strengthen their relationships with targeted customers.

Graphic design is a "visual language," and brilliance is recognized in designers whose work seems to break all the rules, yet communicates its messages clearly. This book is a fun and accessible handbook that presents the fundamentals of design in lists, tips, brief text, and examples. Chapters include Graphic Design: What It Is; What Are They and What Do They Do?; 20 Basic Rules of Good Design; Form and Space-The Basics; Color Fundamentals; Choosing and Using Type; The World of Imagery; Putting it All Together?Essential Layout Concepts; The Right Design Choices: 20 Reminders for Working Designers; and Breaking the Rules: When and Why to Challenge all the Rules of this Book.
