Written for the mid to high-level developmental reading course, *Bridging the Gap, Eighth Edition* by Brenda Smith continues to be the #1 textbook choice of developmental reading educators. *Bridging the Gap* was the first book to focus on how to read college textbooks. Over the course of several editions, this theme has been broadened by linking textbook readings to recent news in the popular press and adding material on critical thinking and the Internet. A hallmark of the text, the end-of-chapter readings represent varying reading levels to permit individualization of assignments to meet varying student needs. A variety of academic disciplines are represented throughout, including psychology, history, biology, business, allied health, English literature, and more. This affordable Books a la Carte Edition features the exact same content from our traditional textbook in a convenient, notebook-ready loose-leaf format -- allowing students to take only what they need to class. As a bonus, the Books a la Carte Edition is accompanied by a full-color, laminated Study Card that's a perfect tool to help students prepare for exams.

Parents: Does your teen withdraw to his or her room at every opportunity? Does she talk with you about her friends? Does he participate in discussions at meals? Does your teen want you to see projects from school? When is the last time you actually went into your teen's room and looked at what's hanging on the walls and sitting on the shelves? Teens: Do your parents hide behind the newspaper? Do they always have to work when you've got a game, a recital, or an open house at school? Is there anything you do together anymore? When was the last time they took a walk, a bike ride, or even a trip to get ice cream with you? When did that sudden gap divide your home into territories staked and claimed, with music blasting through the halls and fists banging on doors to turn down the stereo/TV/video game? Teens, when did you start seeing your parents as your enemies instead of your heroes? And parents, when did you start seeing your teens as crazy little demons instead of your loving children? Finally, there is a solution for both sides, and one that will not only bridge that gap but show parents and teens alike how to prevent it. Jay McGraw is the ideal person to write a book for both parents and teens. A bestselling author by the age of twenty-one and son of number one New York Times bestseller Phillip C. McGraw, Ph.D., known to millions worldwide as Dr. Phil, Jay has seen the parent-teen battle from all angles. In this groundbreaking work, he introduces a new plan for both teens and their parents to work through the issues that divide them and, in the process, rediscover the love that initially defined their relationship. Jay works from both sides -- sharing the perspectives of parent and teen as the former struggles for control, the latter for independence. He explains to parents how their teenagers wish to be treated, cared for, and even disciplined, and he shows teens how gaining power can come only from earning respect. In this entertaining, informative, and life-changing book, Jay gives instructions to both sides of the familial gap on: Dos and Don'ts for Parents and Teens Parent and Teen Myths Discovering Your Needs Tuning In to the Needs of Others Ten Ways to Bridge the Gap and Reconnect In finding a common ground and, even more important, a common respect for each other, parents and teens can break down the walls, unlock the doors, and welcome each other back into one another's lives again.

A research-based guide to navigating the newest dating phenomenon--"the love gap"--and a trailblazing action plan to help smart, confident, career-driven women find (and keep) their match. For a rising generation young women, the sky is the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart, driven, assertive women are succeeding at just about everything they do--except romance. Why are so many men afraid to date smart women? Modern men claim to want smarts, success, and independence in romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life, but losing in love? Journalist Jenna Birch has finally named the perplexing reason: "the love gap"--or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts and real-life relationship stories, *The Love Gap* is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships, and the tricky new gender dynamics that impact them. Women can, and should, have it all without settling.

Best-selling authors and veteran college writing instructors Laurie Kirsznar and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point. In

*Writing First with Readings: Paragraphs and Essays*, the authors take a simple yet effective approach to helping students improve their writing skills: visual writing prompts open every chapter and get students writing immediately. Then, throughout the chapter, students move between their own writing, writing models and instruction, and workbook-style mastery exercises so that they continually revise, rewrite, and improve their own writing. It is this formula that makes writing instruction meaningful and accessible for students. Thoughtful chapters on academic writing and success, research, and critical reading, along with high-interest essays, round out this new edition, making it the perfect introduction to college writing.

- Chronicles the first all-African American summit attempt on Denali, the highest point in North America
- Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature The nation 's wild places—from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It 's a difference that African American author James Mills addresses in his new book, *The Adventure Gap: Changing the Face of the Outdoors*. Bridging the so-called "adventure gap" requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are there, a love affair often follows. This is important because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America 's highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members ' adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.

Two coaches to Fortune 500 companies and social enterprises show how to use the social-psychology of human connection and curiosity to drive meaningful workplace communication and collaboration In today 's increasingly polarized world, we 're struggling to fully understand and respect one other. As a result, we 're losing sight of the importance of building and maintaining professional relationships; even forgetting to be curious and listen to each other. And that 's bad for business. *Bridge the Gap* explores the intersection of how your biology and biography define, refine, and contribute to your presence and behavior in relationships where you struggle to connect. Focusing on personal responsibility and awareness, meta-cognition, and curiosity, the book provides you with a reliable and replicable framework to increase open communication and foster better relationships at work. The authors illuminate the raw power of the human brain and mind, and how they impact the way you connect, communicate, and collaborate with people. They offer a deep dive into how you can better cooperate with people at work, especially when you struggle with differences.

*Bridge the Gap* helps you: • Master your biological reactions when pressure, stress, and anxiety hijack your efforts to connect • Understand how you and others can better communicate and collaborate • Lead with curiosity in all your communication strategies and learn how to give authentic feedback • Feel more comfortable working on diverse teams, embracing all cultural backgrounds Whether you 're entry level staff or a C-Suite executive, you 'll learn how to communicate clearly with a broad spectrum of people and navigate a wide range of emotions in virtually any situation. Rather than focus solely on the mechanics of "difficult" conversations, the authors illustrate how your presence, curiosity, and language can foster better interactions and outcomes with others. Filled with practical exercises, memorable analogies, and colorful stories, *Bridge the Gap* provides everything you need to build solid workplace relationships in nearly any situation.

" [A] wickedly funny Philadelphia picaresque about a secular Muslim 's identity crisis in a country waging a never-ending war on terror. " —O, The Oprah Magazine Ali Eteraz 's much-anticipated debut novel is the

story of M., a supportive husband, adventureless dandy, lapsed believer, and second-generation immigrant who wants nothing more than to host parties and bring children into the world as full-fledged Americans. As M.'s life gradually fragments around him—a wife with a chronic illness, a best friend stricken with grief, a boss jeopardizing a respectable career—M. spins out into the pulsating underbelly of Philadelphia, where he encounters others grappling with fallout from the war on terror. Among the pornographers and converts to Islam, punks and wrestlers, M. confronts his existential degradation and the life of a second-class citizen.

Darkly comic, provocative, and insightful, *Native Believer* is a startling vision of the contemporary American experience and the human capacity to shape identity and belonging at all costs. “*Native Believer* stands as an important contribution to American literary culture: a book quite unlike any I’ve read in recent memory, which uses its characters to explore questions vital to our continuing national discourse around Islam.”

—The New York Times Book Review “A page-turning contemporary fiction that addresses burning issues about the very essence of identity, and without question Ali Eteraz is a writer’s writer, one whose ear for the English language is just as acute as fellow naturalized Americans Vladimir Nabokov (born in Russia) or Viet Thanh Nguyen (Vietnam).” —Los Angeles Review of Books

*Bridging the Communication Gap* is a book about improving communication between customers, business analysts, developers and testers on software projects, especially by using specification by example and agile acceptance testing. These two key emerging software development practices can significantly improve the chances of success of a software project. They ensure that all project participants speak the same language, and build a shared and consistent understanding of the domain. This leads to better specifications, flushes out incorrect assumptions and ensures that functional gaps are discovered before the development starts. With these practices in place you can build software that is genuinely fit for purpose.

While the achievement gap has dominated policy discussions over the past two decades, relatively little attention has been paid to a gap even more at odds with American ideals: the opportunity gap. Opportunity and achievement, while inextricably connected, are very different goals. Every American will not go to college, but every American should be given a fair chance to be prepared for college. In communities across the U.S., children lack the crucial resources and opportunities, inside and outside of schools that they need if they are to reach their potential. *Closing the Opportunity Gap* offers accessible, research-based essays written by top experts who highlight the discrepancies that exist in our public schools, focusing on how policy decisions and life circumstances conspire to create the "opportunity gap" that leads inexorably to stark achievement gaps. They also describe sensible policies grounded in evidence that can restore and enhance opportunities. Moving beyond conventional academic discourse, *Closing the Opportunity Gap* will spark vital new conversations about what schools, parents, educators, and policymakers can and should do to give all children a fair chance to thrive.
