Solve the number one problem with today's young workforce—the soft skills gap. The number one challenge with today's young talent is a problem hiding in plain sight: the ever-widening soft skills gap. Today's new, young workforce has so much to offer—new technical skills, new ideas, new perspective, new energy. Yet too many of them are held back because of their weak soft skills. Soft skills may be harder to define and measure than hard skills, but they are just as critical. People get hired because of their hard skills but get fired because of their soft skills. Setting a good example or simply telling young workers they need to improve isn't enough, nor is scolding them or pointing out their failings in an annual review. However you can teach the missing basics to today's young talent. Based on more than twenty years of research, Bruce Tulgan, renowned expert on the millennial workforce, offers concrete solutions to help managers teach the missing basics of professionalism, critical thinking, and followership—complete with ninety-two step-by-step lesson plans designed to be highly flexible and easy to use. Tulgan's research and proven approach has shown that the key to teaching young people the missing soft skills lies in breaking down critical soft skills into their component parts, concentrating on one small component at a time, with the help of a teaching-style manager. Almost all of the exercises can be done in less than an hour within a team meeting or an extended one-on-one. The exercises are easily modified and customized and can be used as take-home exercises for any individual or group, to guide one-on-one discussions with direct reports and in the classroom as written exercises or group discussions. Managers—and their young employees—will find themselves returning to their favorite exercises over and over again. One exercise at a time, managers will build up the most important soft skills of their new, young talent. These critical soft skills can make the difference between mediocre and good, between good and great, between great and one of a kind.

Is there hope for my relationship with my parents? Children often have a love-hate relationship with their parents. They love how parents give them food, shelter, and money, but they dislike any form of discipline, nagging, or reproof. They often dislike the rules their parents have and the boundaries they set in place. Many times, "getting along" seems like rocket science or nuclear chemistry. Plus, many rocket scientists probably have similar

relationship issues. Why should this relationship be important, and is there really any hope? Full of real life examples, humorous drawings, and creative ideas to help encourage you to build a loving relationship with your parents.

This book answers the exciting question as to the origin and history of the Earth from a geological and a biblical perspective. It reveals the astounding compatibility that exists between the record of geology and the record of the Bible. It reveals the result of a sovereign plan by the Amazing Architect and Creator of the Universe for this Earth. It also confirms the words of Longfellow's appeal to nature: "Come walk with me," she said, "into regions yet untrod, And read what is unsaid In the manuscripts of God." The Earth has been a place of life and habitation since the beginning of the Archean Age. The questions arise: Who were the Earth's First Inhabitants? When did ocean water first appear on Earth? When did the first species of plant and animal life appear on Earth? What was the dramatic Cambrian Explosion of Animal Life? How does this event relate to all future animal species? The December 1995 issue of *Time Magazine* entitled this event, "When Life Exploded." It described the sudden Explosion of Animal Life as an amazing frenzy that changed our planet overnight. When did man and woman first appear on Earth? What were they like? What does the fossil evidence reveal?

Written for the mid to high-level developmental reading course, *Bridging the Gap*, Eighth Edition by Brenda Smith continues to be the #1 textbook choice of developmental reading educators. *Bridging the Gap* was the first book to focus on how to read college textbooks. Over the course of several editions, this theme has been broadened by linking textbook readings to recent news in the popular press and adding material on critical thinking and the Internet. A hallmark of the text, the end-of-chapter readings represent varying reading levels to permit individualization of assignments to meet varying student needs. A variety of academic disciplines are represented throughout, including psychology, history, biology, business, allied health, English literature, and more. This affordable *Books a la Carte* Edition features the exact same content from our traditional textbook in a convenient, notebook-ready loose-leaf format -- allowing students to take only what they need to

class. As a bonus, the *Books a la Carte* Edition is accompanied by a full-color, laminated Study Card that's a perfect tool to help students prepare for exams.

"I came that they may have life, and have it abundantly." JOHN 10:10 This verse prompted a revolution in my spiritual life. After being a Christian for several years, I was confronted with the truth about my spiritual life. While meditating on that verse, I realized my life was not spiritually abundant at all. What followed was a deliberate pursuit of the abundant life that Jesus promised His followers. My story is similar to many other Christians', who know what the Bible says about their God, but have a hard time applying His Truth to their lives. I realized that there were habits, attitudes and people in my life that were preventing me from fulfilling my full potential. These issues needed to be addressed if I were to achieve fulfillment in life. *Twelve Inches* is the actual distance between one's brain and one's heart. The book is designed as a practical blueprint to an abundant life, written by someone who many will relate to. It is a Biblical, tested and proven blueprint to an abundant life in Christ. It does not merely expose problems without helping the reader find solutions. It is a step-by-step, Scripture-inspired plan for anyone who wants to live out the promises that God has laid down in His Word, regardless of life's circumstances or personal limitations. The ultimate objective of this book is to take the reader from a life of little consequence for God's kingdom to one that shines brightly for Jesus in action, faith and testimony. -- Patricia Holbrook

While anyone can make achieve success, the reality is not everyone has equitable access to the necessary tools to reach it. This stems from an inequity rooted in our networks. *Vismale's Werk Your Net* is a book dedicated to bridging this gap by empowering young people from marginalized communities to build their network and net-worth and helping industry leaders learn how to find, assess, and be more inclusive to diverse candidates. Everyone knows something you don't. When we limit our conversations and interactions, we limit our opportunities, resources, our imagination of what is even possible, and ultimately we limit ourselves. *Werk Your Net* gives a guide for how to talk to anyone and accomplish your goals by answering the following questions: How do you find people to reach out to if you don't know where they are? How can you have a meaningful conversation with anyone? How can we increase opportunity for marginalized communities? If you would like to learn how to expand, sustain and utilize your network, build stronger professional relationships and have access to better career opportunities, *Vismale's* book is a must-read.

This book depicts the love of nature and people by this author who worked for the United Nations and its peacekeeping operations in three troubled countries of the world. The nineteen poems in this collection are of varied subjects. During her leisure time while she was temporarily assigned to those troubled countries, she devoted herself to writing articles and poems just as a brain twister. In this book, the author talks of the various inspirations that led her to write the poems. After retirement from the United Nations, this author started to gather and compile all her poems some of which are filled with emotions as a mother and as a friend; some are tributes to famous people and international personalities; some are delightful and pleasant; and some are of ordinary living and love of nature. Each poem tells a story and the book is very informative to read one that you will not put down until you reach the conclusion .a must read book!

"*Bridging the Gap*" is a discourse on restoring civility to a life that is seemingly out of control. It is a clarion call for us to get back into right relationship with God. Man's life is a relentless search for purpose, what is our purpose, why is our purpose and for whose purpose were we tossed into this tempest known as life. These are some of the questions that we face throughout our lives as we mature and come to a greater understanding of our unique status among the earth's created beings. This relentless search for purpose will forever be a cul-de-sac to nowhere as long as we search within for the answers. "*Bridging the Gap*" presents another way, another anecdote to the problems of depression, and lack of fulfillment in life.

This book presents practical advice from a biblical point of view that gives credence to the acronym- B.I.B.L.E.-Basic Instructions Before Leaving Earth. You might be reading this book and feel that you are a victim. You might be reading and are not quite sure what you are. Sometimes it appears that it is your fault and other times you are just confused. You may be convinced that you are living right and life just isn't fair. If you find yourself asking questions like, Why me? How come this seems to happen only to me? Is there really a God? Why am I living? Why do we exist? Do I have any hope beyond this existence? You are in the right place and this is the appointed time. It is not by chance that you have chosen to read this book. If you don't know it by now, understand that nothing, nothing at all, happens by chance. There is a purpose and a lesson to be learned in every experience that we have. Also understand that you are not alone, many people are asking the same questions and many of those people you know quite well. I am here to tell you that there is an answer to every question that you may have. In this book every question that you have may not be answered but I will attempt to reveal to you the mechanisms by which you can find an answer.
