troubleshooting a Briggs & Stratton engine, the same holds true. Fuel must reach the combustion chamber for the engine to fire. Fire is created by the spark of the spark plug which is generated by a magnet on the flywheel. Air is the last component that is needed for any fire. As with no air, no fire or combustion can take place. *Parts Lookup- Briggs & Stratton Online Store* In addition to the best name brand new parts for your Briggs & Stratton Engines, we also handle parts repairs, tune ups and much more.
