From Kelley Skovron comes a ghostly mystery that explores the

little-known history of Nazi indoctrination camps in the United States. It started off small. Just a dripping outside my window. When Morgan witnesses some eerie happenings in her family ' s new house, at first she shrugs them off. But as the unsettling dripping noises—and the sounds of someone crying—become more frequent, she starts to get nervous. Then a neighbor asks Morgan a blood-chilling question: What ' s it like to live in a haunted house? It seems Morgan ' s new home is notorious in the town of Port Jefferson, all because of Joseph Klaus, a boy who drowned in the 1930s after vanishing from his summer camp. Morgan begins

learning all she can about the Klaus boy and uncovers the little-known history of the German American Bund, a Fascist organization that indoctrinated children and forced them into labor. Klaus wasn ' t just escaping from any old summer camp—he was fleeing American Nazis. As Morgan discovers the heartbreaking history of her new town, she ' ll have to do everything she can to protect her family from the spirits it left behind. Because the ghost of Joseph Klaus is still trying to get home—even if he drowns the people living there.

Dr. Pawel Kohoutek, veterinarian

and womanizer, looks out the window one morning to see his mistress approaching his house. Farce ensues as Kohoutek attempts to hide the woman from his eccentric family, the family's lodgers, and various offbeat visitors. The woman, expecting love and children and a future, does not make things easy. As he frantically runs around trying to keep her a secret, Kohoutek's memories -- mostly involuntary and (in true postmodern fashion) of questionable accuracy -- reveal in hilarious detail the life and crises of a hapless libertine and the forces that created him.

The Genius of Erasmus
Darwin provides insight into

the full extent of Erasmus Darwin's exceptional intellect. He is shown to be a major creative thinker and innovator, one of the minds behind the late eighteenth-century industrial revolution, and one of the first, if not the first, to perceive the living world (including humans) as part of a unified evolutionary scenario. The contributions here provide contextual understandings of Erasmus Darwin's thought, as well as studies of particular works and accounts of the later reception of his writings. In this way it is possible to see why the young Samuel Taylor

Coleridge was moved to describe Darwin as 'the first literary character in Europe, and the most original-minded man'. Erasmus Darwin, Charles Darwin's grandfather, was one of the leading intellectuals of eighteenth-century England. He was a man with an extraordinary range of interests and activities: he was a doctor, biologist, inventor, poet, linguist and botanist. He was also a founding member of the Lunar Society, an intellectual community that included such eminent men as James Watt and Josiah Wedgwood. Landschaftsarchitektur

Ashgate Publishing, Ltd. The poems of the Epic Cycle are assumed to be the reworking of myths and narratives which had their roots in an oral tradition predating that of many of the myths and narratives which took their present form in the Iliad and the Odyssey. The remains of these texts allow us to investigate diachronic aspects of epic diction as well as the extent of variation within it on the part of individual authors - two of the most important questions in modern research on archaic epic. They also help to

illuminate the early history of Greek mythology. Access to the poems, however, has been thwarted by their current fragmentary state. This volume provides the scholarly community and graduate students with a thorough critical foundation for reading and interpreting them.

What's Wrong With Wende?

I've known since I was young that something was wrong with me. Four-year-olds don't read newspapers. Ten-year-olds aren't supposed to be given their Mommy's wake up pills or slapped at eleven for telling on the man who raped her. I didn't mean to rob 7-11 when I was fifteen or get kicked out of the Navy at 17. I married too young and was a mommy too

soon. Another marriage ended when they arrested him as a serial rapist suspected of murder. Drugs came easy with a direct line to the cook, and an organized crime affiliation. My family can't believe all I've survived, they were told I was dying twice, but God had other plans. This is the true story of my life. It hasn't always been pretty, and there's no way to sugar-coat ugly. So, if you're easily offended or faint of heart, my book may not be for you. If, on the other hand, you think your life is over cause you've made a mess of it, turn the page. Have I got a story for

you?

SHE BELIEVED LOVE
WAS FOOLISH-- UNTIL
IT TAUGHT HER

OTHERWISE! Diantha Halstow liked to declare that love was nothing but a mere illusion to trap fools. Rexford Lytham, Earl of Chartridge, couldn't agree more. He was, Diantha thought, a most sensible man. And theirs was a most sensible marriage: her money for his title. What more could two

cynics want? There was, however, one aspect of their union that did not answer to reason and good sense: the marriage bed. Here, passion ruled most insistently, wild and unpredictable, like the tide of new emotion that threatened to engulf Diantha entirely. And now she despaired at having become that most ridiculous of creatures: a woman in love with her own husband!
