Bridges to the Past is an anthology of short stories involving Appalachian Mountain humor and serious events that profoundly affected the life of a boy and influenced him prodigiously as an adult. Chapter I, "The Whimper Carter Tales" portrays, in a vivid manner, the art of storytelling. It brings the reader vis-a-vis with Winfrey "Whimper" Carter who epitomized Appalachian storytelling and imagination. Imagine a preacher re-learning profanity because a lawnmower will not start. Alternatively, a teenager thinking a snake bites him when he was actually shot. Humor is to life what blood is to the heart, and Chapter I contains a huge dose of humor. In addition, it's interspersed with historical facts which provide interesting reading. Chapter II, "A Lad's Heroes" is a poignant true story of a small boy who develops a her worship for two older cousins who served with Airborne units in World War II. This hero worship leads the lad into the United States Army and the Airborne. He, too, becomes a paratrooper as a memorial to his relatives, one who was killed in action at the Battle of the Bulge. It is a story that any combat veteran or those interested in military history will enjoy. Chapter III, "A Towheaded Boy and a Fifty-Dollar Rooster" is an equally emotional story that contains some levity. This chapter describes the love and devotion that can develop between a boy and his pets. it further denotes how experiences in childhood may affect a person for life. Chapter IV, "The Day of the Sermon" is a fictional account of a historical episode that shows the suffering of slaves in the ante-bellum South without being academic. It also deals with a devout preacher having the courage to challenge the slave holders in his congregation to determine a way to free those in bondage. Chapter IV invites people to examine the memories of slavery and its effect on this nation. Chapter V, "The Taking of a Deer" is a serious historical fiction account based on a true story of an underdog who was defended in court, gratis, by a wealthy and influential lawyer who once served as a Governor of Tennessee. It demonstrates that the laws of God and commonsense can prevail over laws and justice can be served to the underprivileged. Chapter VI, "The Uncle Cad Tales" depicts humans as they actually exist. This entire chapter consists of humorous tales spoken by a real character who has never received any attention other than through those who have known him. Overall, Bridges is a book that will be enjoyable to people of both sexes and all ages. Everyone, regardless of social status, will find something in Bridges that is fulfilling. It is down-to-earth and involves people who are not rich or famous, but who are very entertaining.

Plain Tales from Antarctica are short stories based on real incidents that occurred during the author ' s two-year stay as a meteorologist at Halley 3, a British Research base in Antarctica located about 500 miles from the South Pole. In 1973 to 1975, Graham Chambers was part of an eighteen-man (no women) research group that lived in this fascinating yet unforgiving landscape. He writes: " It was a unique experience and one with sights, sounds and smells which are not forgotten after forty years. " Each story is based on real events and essentially is a true recollection, barring a strictly limited amount of literary licence and the limitations of human recollection. It is worth mentioning in this respect the ' witness ' phenomenon, whereby 12 people can witness the very same event and produce at least half a dozen unique recollections of it. " Thanks are due to the characters who inadvertently animated the stories. Some names have been changed and others not. "
