Daddy, Can You Bring Me the Moon? is Justin Vaughn's debut picture book. It features the lovely illustrations of Breanna Matthews. Justin is a husband, father, and an early childhood educator. He published his first book, Room at the Table, in 2020. Breanna is traditionally trained in oil painting, and she has worked in many other mediums such as paper cutting, graphic design, watercolor, and digital illustrations. From the author: "One of my favorite aspects of being an author is the ability to capture a feeling in a story and to make it relatable to others. In my new picture book, I sought to capture the loving relationship between a father and his daughter. The innocent wonder of the daughter and the unconditional love of the father, during their interactions on an evening stroll on the beach, will surely connect to many who read this book. I hope it will become a great bedtime story for fathers and daughters to share together for years to come."

Bring Me the Rhinoceros is an unusual guide to happiness and a can opener for your thinking. For fifteen hundred years, Zen koans have been passed down through generations of masters, usually in private encounters between teacher and student. This book deftly retells more than a dozen traditional koans, which are partly paradoxical questions dangerous to your beliefs and partly treasure boxes of ancient wisdom. Koans show that you don't have to impress people or change into an improved, more polished version of yourself. Instead you can find happiness by unbuilding, unmaking, throwing overboard, and generally subverting unhappiness. John Tarrant brings the heart of the koan tradition out into the open, reminding us that the old

wisdom remains as vital as ever, a deep resource available to anyone in any place or time.

More than any other filmmaker, Sam Peckinpah opened the door for graphic violence in movies. In this book, Stephen Prince explains the rise of explicit violence in the American cinema, its social effects, and the relation of contemporary ultraviolence to the radical, humanistic filmmaking that Peckinpah practiced. Prince demonstrates Peckinpah's complex approach to screen violence and shows him as a serious artist whose work was tied to the social and political upheavals of the 1960s. He explains how the director's commitment to showing the horror and pain of violence compelled him to use a complex style that aimed to control the viewer's response. Prince offers an unprecedented portrait of Peckinpah the filmmaker. Drawing on primary research materials—Peckinpah's unpublished correspondence, scripts, production memos, and editing notes—he provides a wealth of new information about the making of the films and Peckinpah's critical shaping of their content and violent imagery. This material shows Peckinpah as a filmmaker of intelligence, a keen observer of American society, and a tragic artist disturbed by the images he created. Prince's account establishes, for the first time, Peckinpah's place as a major filmmaker. This book is essential reading for those interested in Peckinpah, the problem of movie violence, and contemporary American cinema.

Virtuosoic stories by one of “the more interesting and ambitious prose stylists of our time” (Los Angeles Times) In this madcap, insatiably inventive, bravura story collection, Julián Herbert brings to vivid life people who struggle to retain a measure of sanity in an insane world. Here we become acquainted with a vengeful “personal memories coach” who tries to get even with his delinquent clients; a former journalist with a cocaine habit who travels through northern Mexico impersonating a famous author of Westerns; the ghost of Juan Rulfo; a man who discovers music in his teeth; and, in the deliriously pulpy title story, a drug lord who looks just like Quentin Tarantino, who kidnaps a mopey film critic to discuss Tarantino's films while he sends his goons to find and kill the doppelgänger that has colonized his consciousness. Herbert's astute observations about human nature in extremis feel like the reader's own revelations. The antic and often dire stories in Bring Me the Head of Quentin Tarantino depict the violence and corruption that plague Mexico today, but they are also deeply ruminative and layered explorations of the narrative impulse and the ethics of art making. Herbert asks: Where are the lines between fiction, memory, and reality? What is the relationship between power, corruption, and survival? How much violence can a person (and a country) take? The stories in this explosive collection showcase the fevered imagination of a significant contemporary writer.

West Ham United last won a major trophy in 1980, but the roller-coaster ride of the past three decades has produced enough twists and turns, heroes and villains and contrasting emotions to grace the script of the most thrilling TV soap opera. Since Trevor Brooking headed home the FA Cup final winner against Arsenal, the Hammers have experienced delight and despair in not so equal measure, with a cast of controversial characters - either adored or abhorred - playing the key roles in a tale of fact rather than fiction. The saving of the club by David Sullivan and David Gold, as West Ham stared into the financial abyss following the ill-fated Bjorgolfur Gudmundsson reign, is the latest chapter in a saga that includes numerous promotions and relegations, great escapes, contentious changes of ownership and management, internal feuds, bust-

ups and power struggles, the Carlos Tevez affair and the passing of legends Ron Greenwood, John Lyall and Bobby Moore, as well as several false dawns in the endless quest for success. Including exclusive interviews with key protagonists, *Bring Me the Head of Trevor Brooking* tells - for the very first time - the inside story behind 60 of the most significant developments at Upton Park in the modern era. Whether examining the contributions of Paolo Di Canio, Harry Redknapp and Frank McAvennie or Gianfranco Zola, Marco Boogers and Iain Dowie, the book celebrates the good, the bad and the ugly of West Ham United.

When the Task Force of the Royal Navy started its southbound voyage, as the second major act during the Falklands/Malvinas War of 1982, its commanders assessed the Argentine submarines as the biggest threat. Even if limited in total size and scope, this threat was so conditioning that the conclusion was that it had to be neutralized at the earliest possible moment in time, otherwise no victory would have been possible. The British believed that the Argentines would wait for them in the waters of the war zone with two modern and dangerous German-made Type-209 submarines, and a modified US-made submarine from the times of the Second World War. To their good luck, this threat was quickly reduced to two, because during the first naval combat of the conflict, the old ARA Santa Fe was knocked out and captured by the Royal Navy at South Georgia. Further anti-submarine operations followed on 1 May 1982, when ARA San Luis attacked Royal Navy warships, and, in turn, was counterattacked, resulting in scenes reminiscent of those from the movie *Das Boot*. Avoiding its pursuers, the boat distanced before re-attacking a few days later – when multiple factors conspired to prevent it from becoming successful. Despite systematic pursuit by warships and helicopters of the Royal Navy, the submarine eventually returned to its home port in one piece. Because the other Argentinean Type-209, ARA Salta, was non-operational, the withdrawal of the ARA San Luis also prompted the withdrawal of all the major units of the Argentine Navy into shallow waters off the coast of South America. Although the undersea battlefield was thus actually empty of Argentine submarines, elements of the Royal Navy's task force continued detecting and tracking multiple sonar contacts over the following days and weeks. Indeed, they ultimately fired no fewer than 31 torpedoes, 49 depth-charges and 21 mortar salvoes at these. "Go Find Him and Bring Me Back His Hat" is the story of the crews of 22 warships, submarines, anti-submarine-warfare helicopters, and Nimrod submarine-hunter aircraft, their intensive and advanced training, and combat experiences – a richly illustrated story that has never been told before.

Bring Me to Light Ebury Spotlight

The masculinity of those who serve in the American military would seem to be beyond reproach, yet it is full of contradictions. To become a warrior, one must renounce those things in life that are perceived to be unmasculine. Yet at the same time, the military has encouraged and even mandated warriors to do exactly the opposite. With the expansion of America's overseas ambitions after 1898, warriors have been compelled to cultivate aspects of themselves which under any other circumstances would seem unmasculine. The creation of a masculine armed force therefore has required a surprising degree of engagement with the unmasculine while, at the same time, requiring warriors to maintain a strict disavowal of those very same unmasculine things against which they define themselves. In *Bring Me Men*, Aaron Belkin explores these contradictions in great detail and shows that their invisibility has been central to the process of concealing American empire's nastiest warts. Maintaining the warrior's heroic image has involved displacing negative aspects of military masculinity's contradictions onto demonized outcasts, especially women, gay men and lesbians, and African Americans. Ironically, these scapegoats of military masculinity have not distanced themselves from the armed forces, but have stabilized the benign facade of empire as they sought to gain admittance to the community of warriors. By examining case studies that expose these contradictions--the phenomenon of male-on-male rape at the U.S. Naval Academy, for example, as well as historical and contemporary attitudes toward cleanliness and filth--Belkin utterly upends our understanding of the relationship between warrior masculinity and American

empire and the fragile processes sustaining it.
