Raising a bright and happy child starts during pregnancy and early infancy, when small changes can have a big impact on brain development. ? By taking advantage of this golden window of opportunity--when millions of new brain cells are formed every single day--you can help support your child's IQ, language development, memory, attention span, and emotional regulation. Importantly, the same strategies that nurture these cognitive abilities can also help reduce the odds of autism and ADHD, conditions that now impact 1 in 10 children. Brain Health from Birth is your guide to this new scientific frontier, explaining which key nutrients may be missing from your prenatal supplement, how to reduce the odds of preterm birth, what to look for in a formula, how to support your baby's microbiome, and much more. With contributions from leading obstetricians and pediatricians, science writer Rebecca Fett (author of the bestselling fertility book It Starts with the Egg) brings you practical advice you can start applying today, to help your baby thrive.

#### Meeting the Toddler Car Seat Challenge

"Becoming Mother" tells the story of a woman becoming a mother. It is a reflective memoir that spans from pregnancy through the end of the first year postpartum. It follows the author as she resists, denies, copes with, and ultimately embraces her identity as a mother. This isn't a guide or a parenting book. Its goal isn't to convert you to one brand of motherhood or another. Instead, its goal is to show you what becoming a mother can be like. Without sarcasm. Without boasting or martyrdom. Just the plain, messy truth of what it's like for one to become two.
