Baby Bargains Simon and Schuster

In *Teen-Proofing*, now available in paperback, he tackles the challenges of raising a teenager with his trademark user-friendly, humorous, and commonsense style. Rosemond lays out a perfectly sound and logical case for recognizing the realities of the teen-parent relationship, forming the foundation, and parenting with the "Long Rope Principle." In short, the author demonstrates how Mom and Dad can avoid the pitfalls of becoming dictatorial "Control Freaks," skirt the potholes of turning into permissive "Wimps," and enjoy the freedom and rewards of parenting in a controlled (but not controlling) and relaxed manner. Teenagers, Rosemond readily admits, can be a challenge. But infusing young adults with a sense of personal responsibility, then showing them the results of good and bad choices, is a goal every parent can achieve.

Raising a bright and happy child starts during pregnancy and early infancy, when small changes can have a big impact on brain development. ? By taking advantage of this golden window of opportunity--when millions of new brain cells are formed every single day--you can help support your child's IQ, language development, memory, attention span, and emotional regulation. Importantly, the same strategies that nurture these cognitive abilities can also help reduce the odds of autism and ADHD, conditions that now impact 1 in 10 children. Brain Health from Birth is your guide to this new scientific frontier, explaining which key nutrients may be missing from your prenatal supplement, how to reduce the odds of preterm birth, what to look for in a formula, how to support your baby's microbiome, and much more. With contributions from leading obstetricians and pediatricians, science writer Rebecca Fett (author of the bestselling fertility book It Starts with the Egg) brings you practical

advice you can start applying today, to help your baby thrive.
