An Arthur Adventure HarperCollins  
"Revelatory, terrifying, but, ultimately, hopeful." -Elizabeth Kolbert, Pulitzer Prize-winning author of *THE SIXTH EXTINCTION* From the author of *Junkyard Planet*, a journey into the surprising afterlives of our former possessions. Downsizing. Decluttering. Discarding. Sooner or later, all of us are faced with things we no longer need or want. But when we drop our old clothes and other items off at a local donation center, where do they go? Sometimes across the country-or even halfway across the world-to people and places who find value in what we leave behind. In *Secondhand*, journalist Adam Minter takes us on an unexpected adventure into the often-hidden, multibillion-dollar industry of reuse: thrift stores in the American Southwest to vintage shops in Tokyo, flea markets in Southeast Asia to used-goods enterprises in Ghana, and more. Along the way, Minter meets the fascinating people who handle-and profit from-our rising tide of discarded stuff, and asks a pressing question: In a world that craves shiny and new, is there room for it all? *Secondhand* offers hopeful answers and hard truths. A history of the stuff we've used and a

contemplation of why we keep buying more, it also reveals the marketing practices, design failures, and racial prejudices that push used items into landfills instead of new homes. Secondhand shows us that it doesn't have to be this way, and what really needs to change to build a sustainable future free of excess stuff.

*How to be Human* is the only manual you need to help you upgrade your mind as much as you've upgraded your iPhone. 'With this marvellous book, Ruby Wax has confirmed her position as one of the most readable, inspirational and engaging writers in the field of human mental health, happiness and fulfilment.' Stephen Fry "It took us 4 billion years to evolve to where we are now - completely brilliant and yet, some might say, emotionally dwarfed. The question is: can our more empathetic side catch up in time to save us and the world? I've got nothing against smarts, but it's smarts without emotional awareness that got us into this position of being able to nuke each other into oblivion and rape the earth for oil." With a little help from a monk (who tells us how our mind works) and a neuroscientist (who tells us how our brain works), Ruby Wax answers every question you've ever had about: evolution, thoughts, emotions, the body, addictions, relationships, sex, kids, the future and compassion. Filled with witty anecdotes from Ruby's own life, and backed up by smart science and practical mindfulness exercises, *How to be Human* is the only manual you need to help you upgrade your mind as much as you've upgraded your iPhone. 'Ruby has beautifully fused neurology and spirituality and given us a means to cope with operating both a mind and a brain. If this mental upgrade works then all other books will become defunct as we repose in bliss.' Russell Brand 'How to Be Human is, without exaggeration, a lifeline; wise, practical and funny, it is a handbook for those in despair. It is actually for everyone alive, for the curious, or disillusioned or muddled or just plain happy.' Joanna Lumley

Haunted Halloween Party Henry Holt and Company (BYR) *Emancipating Lincoln* seeks a new approach to the Emancipation Proclamation, a foundational text of American liberty that in recent years has been subject to woeful misinterpretation. These seventeen hundred words are Lincoln's most important piece of writing, responsible both for his being hailed as the Great Emancipator and for his being pilloried by those who consider his once-radical effort at emancipation insufficient and half-hearted. Harold Holzer, an award-winning Lincoln scholar, invites us to examine the impact of Lincoln's momentous announcement at the moment of its creation, and then as its meaning has changed over time. Using neglected original sources, Holzer uncovers Lincoln's very modern manipulation of the media—from his promulgation of disinformation to the ways he variously withheld, leaked, and promoted the Proclamation—in order to make his society-altering announcement palatable to America. Examining his agonizing revisions, we learn why a peerless prose writer executed what he regarded as his 'greatest act' in leaden language. Turning from word to image, we see the complex responses in American sculpture, painting, and illustration across the past century and a half, as artists sought to criticize, lionize, and profit from Lincoln's endeavor. Holzer shows the faults in applying our own standards to Lincoln's efforts, but also demonstrates how Lincoln's obfuscations made it nearly impossible to discern his true motives. As we

approach the 150th anniversary of the Proclamation, this concise volume is a vivid depiction of the painfully slow march of all Americans-white and black, leaders and constituents-toward freedom. -- Publisher description.

#### The Manual Calkins Creek Books

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
