To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, *Your Secret Not Admirer*

*The Local Government (Structural and Boundary Changes) (Supplementary Provision and Miscellaneous Amendments) Order 2019 Storm*

Eliza Knight's bestselling Scottish historical romance series, *The Stolen Bride Series*, is back with another amazing tale of adventure, passion and love!

Ceana Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong alliance and ending a decades-old feud.

Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish—whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceana must work together to overcome the obstacles that bind them. But perhaps seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a union born in alliance? Maybe Fate knew all along just who was meant for who...

*Radar Instruction Manual* Syngress

In the summer of 1949 fifteen smokejumpers parachuted into a remote Montana canyon called Mann Gulch. It started as a very small fire in rugged country but within two hours after landing, thirteen of these young men were caught in a raging inferno and were killed. They died bravely, together with their friends, and in the service of their country. Everyone was young and attractive, healthy and strong, enthusiastic and in love. They were bursting into the prime of their lives. There were no malcontents here. Everyone did their best but events overtook them. Until now the actual time line has never been connected to the people involved. *Fire in Montana* connects the lives of young smokejumpers who lived with a joy of life and expectations of shining futures, the forest rangers and volunteers who fought valiantly to rescue them, and their families, lovers,

and friends who were forced to wait and pray, then face the devastating and heart wrenching loss.

*Camo Girl* John Wiley & Sons

The former pastor and Arkansas governor discusses his career and the political scandals he witnessed, and explains how faith can help people to stay on the right path and handle any challenge.

*Data Warehousing Fundamentals* Penguin

*The Basics of Cyber Safety: Computer and Mobile Device Safety Made Easy* presents modern tactics on how to secure computer and mobile devices, including what behaviors are safe while surfing, searching, and interacting with others in the virtual world. The book's author, Professor John Sammons, who teaches information security at Marshall University, introduces readers to the basic concepts of protecting their computer, mobile devices, and data during a time that is described as the most connected in history. This timely resource provides useful information for readers who know very little about the basic principles of keeping the devices they are connected to—or themselves—secure while online. In addition, the text discusses, in a non-technical way, the cost of connectedness to your privacy, and what you can do to it, including how to avoid all kinds of viruses, malware, cybercrime, and identity theft. Final sections provide the latest information on safe computing in the workplace and at school, and give parents steps they can take to keep young kids and teens safe online. Provides the most straightforward and up-to-date guide to cyber safety for anyone who ventures online for work, school, or personal use Includes real world examples that demonstrate how cyber criminals commit their crimes, and what users can do to keep their data safe

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when

Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

*Fire in Montana* John Wiley & Sons

This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. Informed Societies: Why Information literacy matters for citizenship, participation and democracy covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.

"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? \* Don't miss the latest in the Arkady Renko series, **THE SIBERIAN DILEMMA**, by Martin Cruz Smith, a novelist 'that anyone who is serious about their craft views with respect bordering on awe' (Val McDermid) \* 'Martin Cruz Smith makes tension rise through the page like a shark's fin' Independent Once the Chief Investigator of the Moscow Militsiya, Arkady Renko is now a pariah of the Prosecutor's Office and has been reduced to investigating reports of late-night subway riders seeing the ghost of Joseph Stalin. Part political hocus-pocus, part wishful thinking - even the illusion of the bloody dictator has a higher approval rating than Renko. After being left by his lover for a more popular and successful detective, Renko's investigation becomes a jealousy-fuelled quest leading to the barren fields of Tver, where millions of soldiers fought, and lost their lives. Here, scavengers collect bones, weapons and paraphernalia off the remains of those slain, but there's more to be found than bullets and boots. Praise for Martin Cruz Smith: 'The story drips with atmosphere and authenticity – a literary triumph' David Young, bestselling author of Stasi Child 'Smith not only constructs grittily realistic plots, he also has a gift for characterisation of which most thriller writers can only dream' Mail on Sunday 'Smith was among the first of a new generation of writers who made thrillers literary' Guardian 'Brilliantly worked, marvellously written . . . an imaginative triumph' Sunday Times 'A wonderful surprise of a novel' William Ryan, author of *The Constant Soldier*

**To My Arrogant Boss** Little, Brown

Don't miss the latest book in the Arkady Renko series, **THE SIBERIAN DILEMMA** by Martin Cruz Smith, 'the master of the international thriller' (New York Times) – available to order now! **AN ARKADY RENKO NOVEL: #5** 'One of those writers that anyone who is serious about their craft views with respect bordering on awe' Val McDermid 'Makes tension rise through the page like a shark's fin' Independent \*\*\* The iron curtain has fallen and a screen of nouveau capitalism stands in its place. Though the New Russia is foreign to Renko, the corruption and brutality that he encounters are all too familiar. The seeming suicide of one of Russia's new billionaires leads Arkady Renko to Chernobyl and the Zone of Exclusion, the still radioactive site of great catastrophe - a spectral netherworld populated by the corrupted, the obstinate and the reckless . . . Praise for Martin Cruz Smith 'The story drips with atmosphere and authenticity – a literary triumph' David Young, bestselling author of Stasi Child 'Smith not only constructs grittily realistic plots, he also has a gift for characterisation of which most thriller writers can only dream' Mail on Sunday 'Smith was among the first of a new generation of writers who

made thrillers literary' Guardian 'Brilliantly worked, marvellously written . . . an imaginative triumph' Sunday Times 'Martin Cruz Smith's Renko novels are superb' William Ryan, author of *The Constant Soldier*

**Instructor's Manual for Neonatal Resuscitation** Entangled: Amara  
**Microsoft Windows 7 Administrators Reference** covers various aspects of Windows 7 systems, including its general information as well as installation and upgrades. This reference explains how to deploy, use, and manage the operating system. The book is divided into 10 chapters. Chapter 1 introduces the Windows 7 and the rationale of releasing this operating system. The next chapter discusses how an administrator can install and upgrade the old operating system from Windows Vista to Windows 7. The deployment of Windows 7 in an organization or other environment is then explained. It also provides the information needed to deploy Windows 7 easily and quickly for both the administrator and end users. Furthermore, the book provides the features of Windows 7 and the ways to manage it properly. The remaining chapters discuss how to secure Windows 7, as well as how to troubleshoot it. This book will serve as a reference and guide for those who want to utilize Windows 7. Covers Powershell V2, Bitlocker, and mobility issues Includes comprehensive details for configuration, deployment, and troubleshooting Consists of content written for system administrators by system administrators

**The Aussie Next Door** J.S. Cooper

A riveting true story of the failure of the courts and police to protect a woman and her daughters.

Learn how people break websites and how you can, too. *Real-World Bug Hunting* is the premier field guide to finding software bugs. Whether you're a cyber-security beginner who wants to make the internet safer or a seasoned developer who wants to write secure code, ethical hacker Peter Yaworski will show you how it's done. You'll learn about the most common types of bugs like cross-site scripting, insecure direct object references, and server-side request forgery. Using real-life case studies of rewarded vulnerabilities from applications like Twitter, Facebook, Google, and Uber, you'll see how hackers manage to invoke race conditions while transferring money, use URL parameter to cause users to like unintended tweets, and more. Each chapter introduces a vulnerability type accompanied by a series of actual reported bug bounties. The book's collection of tales from the field will teach you how attackers trick users into giving away their sensitive information and how sites may reveal their vulnerabilities to savvy users. You'll even learn how you could turn your challenging new hobby into a successful career. You'll learn: How the internet works and basic web hacking concepts How attackers compromise websites How to identify functionality commonly associated with vulnerabilities How to find bug bounty programs and submit effective vulnerability reports *Real-World Bug Hunting* is a fascinating soup-to-nuts primer on web security vulnerabilities, filled with stories from the trenches and practical wisdom. With your new understanding of site security and weaknesses, you can help make the web a safer place--and profit while you're at it.

**Stalin's Ghost** HarperCollins

Easy Rawlins, L.A.'s most reluctant detective, comes home one day to find Easter, the daughter of his friend Christmas Black, left on his doorstep. Easy knows that this could only mean that the ex-marine Black is probably dead, or will be soon. Easter's appearance is only the beginning, as Easy is immersed in a sea of problems. The love of his life is marrying another man and his friend Mouse is wanted for the murder of a father of twelve. As

he's searching for a clue to Christmas Black's whereabouts, two suspicious MPs hire him to find his friend Black on behalf of the U.S. Army. Easy's investigation brings him to Faith Laneer, a blonde woman with a dark past. As Easy begins to put the pieces together, he realizes that Black's disappearance has its roots in Vietnam, and that Faith might be in a world of danger.
