This book highlights electromagnetic actuation (EMA) and sensing systems for a broad range of applications including targeted drug delivery, drug-release-rate control, catheterization, intravitreal needleless injections, wireless magnetic capsule endoscopy, and micromanipulations. It also reviews the state-of-the-art magnetic actuation and sensing technologies with remotely controlled targets used in biomedicine.

**Slightly Askew Advice on Getting the Best from Any Color Printer** Parragon Publishing India

Combining cutting-edge technologies and techniques with existing approaches, this book equips you with the tools and knowledge needed to develop new energy-efficient and environmentally friendly RFID systems. As well as covering RFID basics, a wide range of new technologies is discussed, including biodegradable and recyclable material use, energy scavenging, passive and chipless architectures, RFID passive sensors, networked RFID and RFID sensors, organic electronic devices, textile electronics, and distributed and wide area electronics. Providing a clear description of how RFID technology can enable the evolution of the Internet of Things, the book guides you down the path to facing new challenges as we move towards ubiquitous sensing for smart environments and a networked society. This is an ideal guide for researchers in academia and industry, technical managers, and graduate students in RF and wireless communications.

**The Underground Guide to Color Printers** CM Consulting

This collection places the darkest and most horrific aspects of human nature alongside the beauty of natural landscapes and the awesome power of disease. This is a must for horror addicts who like a bit of contrast to set the evil of human nature in contrast with the overwhelming magnificence of the natural world. A bizarre collection of modern poetic tales which resonate with the reader long after the final page is turned. This anthology contains three of Valkyrie Kerry's Chapbooks; 'Darkest Matter', 'Epidemonology' and 'Beautiful World: Meditations Chapbook.' The contrasts reflect the contrasting nature of Valkyrie Kerry's own personal journey as a bipolar survivor. Unforgettable words by The Duchess of Darkness

Are you an engineer or manager working on the development and implementation of RFID technology? If so, this book is for you. Covering both passive and active RFID systems, the challenges to RFID implementation are addressed using specific industry research examples and common integration issues. Key topics include RF tag performance optimization, evaluation methodologies for RFID and Real-Time-Location Systems (RTLS) and sensors, EPC network simulation, RFID in the retail supply chain, and applications in product lifecycle management, anti-counterfeiting and cold chain management. The book brings together insights from the world's leading research laboratories in the field, including the Auto-ID Labs at MIT, successor to the Auto-ID Center which developed the Electronic Product Code scheme which is set to become the global standard for product identification. MIT Auto-ID Labs's suite of Open Source code and tools for RFID implementation is available at [www.cambridge.org/9780521880930](http://www.cambridge.org/9780521880930).

The authors trace the emergence of Atatürk and Reza Shah through the constitutional revolutions in Iran and the Ottoman Empire, which led to the introduction of European social models, the establishment of dictatorship and of secularist reforms. This produced in both Turkey and Iran highly authoritarian, nationalist, and quasi-westernised states, where the personality cult of the leader defined the politics of each country."

Get the Most Bang for Your Buck Step up your venison cooking game with fresh field-to-table recipes that make the most of your whole harvest from shoulder to shank. Venison cooking is for everyone, and Allie Doran,

creator of Miss Allie's Kitchen, shows you how to make sure every meal you make is as tender, flavorful and easy as possible, from the Easiest Black Pepper Jerky to Red Wine-Braised Short Ribs with Herb Gremolata. In this recipe collection, you'll learn all the skills you need to start cooking the best game meals of your life beyond basic stewing. Break down sinewy sirloin with tenderizing marinades, use the fat in neck meat to make mouthwatering barbacoa or even cube up tough flank meat for tacos and kebabs. Soon you'll find there's no such thing as a bad cut of meat when you're cooking it right! Even less experienced cooks can get superior quality meals—with helpful sections on field dressing your deer and suggestions for which cuts to use for every dish. In no time at all, you can break out a Wild Game Charcuterie Board for a party, level up your brunch with Southern-Style Sausage Gravy or have a date night in with the impressive Roasted Whole Tenderloin with Peppercorns. Full of hearty recipes for every cut of meat and every occasion, Venison Every Day will never leave you wondering what to do with a freezer full of deer again.

This book provides an overview of the ACCESS program, a mental health program that has been developed and tested as an efficacious treatment for college students with ADHD. This program is at the cutting edge of clinical research, incorporating treatment strategies that allow for dissemination in real world settings in order to effectively assist college students experiencing difficulties in their academic, personal, social, and emotional functioning. As cognitive behavioral approaches have proved to be the most successful psychological treatments to date, the techniques in this volume follow that model in a detailed and nuanced fashion. The authors provide a week by week breakdown of the program, supplemented by handouts and worksheets designed to facilitate better understanding of the areas targeted by the program. Filling a notable gap in research addressing the ADHD college student population, CBT for College Students with ADHD is a crucial resource for campus mental health practitioners as well as a broad range of clinicians dealing with emerging adults.

To those on the outside, the Powells are a happy family, but then a devastating accident destroys their fragile facade. When seven-year-old Henry is blamed for the tragedy, he tries desperately to make his parents happy again. As Henry grows up, he is full of potential—a talented sportsman with an academic mind and a thirst for adventure—but soon he questions if the guilt his parents have burdened him with has left him unable to escape his anguished family or their painful past. With a delicate touch and masterful attention to detail, New York Times bestselling author Elizabeth Flock invites us to meet a man both ordinary and extraordinary, and to experience a life that has yet to be lived.

Want to take control of your life? Want to trade in that listless job and create the company you've always dreamed of? Millions of new businesses are started each year, from online diamond dealers to part-time "pet projects" to the latest franchises. StartupNation is all about putting you in the driver's seat to start your own business. Jeff and Rich Sloan are lifelong entrepreneurs who have created dozens of successful businesses and have guided and advised thousands of others through their nationally syndicated radio talk show, on their Web site, and in their weekly online newsletter. In StartupNation, the Sloan Brothers examines every aspect of smart entrepreneurship and help you create the business you've always dreamed of. You'll learn about the dos and don'ts and the highs and lows of building your own business through the Sloan's in-the-trenches insights and the inspirational tales of over thirty other gutsy entrepreneurs. Among the stories you'll read about: • The Sloans' own patented invention, the Battery Buddy®, which generated more than \$1 million in royalties • Lavetta Willis, who built Dada Footwear into a fashion brand that now produces sneakers worn by NBA basketball stars • Tom Nardone, who created the booming ShopInPrivate.com, where people can order items they're embarrassed to buy at the local drugstore. StartupNation presents a master course in identifying a good idea, building the right kind of business around it, and avoiding the pitfalls that can derail you. If you've ever dreamed of pursuing your own business, StartupNation will be your most powerful resource.
