The game of chess reached western Europe by the year 1000, and within several generations it had become one of the most popular pastimes ever. Both men and women, and even priests played the game despite the Catholic Church's repeated prohibitions. Characters in countless romances, chansons de geste, and moral tales of the eleventh through twelfth centuries also played chess, which

often symbolized romantic attraction or sexual consummation. In *Power Play*, Jenny Adams looks to medieval literary representations to ask what they can tell us both about the ways the game changed as it was naturalized in the West and about the society these changes reflected. In its Western form, chess featured a queen rather than a counselor, a judge or bishop rather than an elephant, a knight rather than a horse; in some manifestations, even the pawns were differentiated into artisans, farmers, and tradespeople with discrete

identities. Power Play is the first book to ask why chess became so popular so quickly, why its pieces were altered, and what the consequences of these changes were. More than pleasure was at stake, Adams contends. As allegorists and political theorists connected the moves of the pieces to their real-life counterparts, chess took on important symbolic power. For these writers and others, the game provided a means to figure both human interactions and institutions, to envision a civic order not necessarily dominated by a king, and to imagine

a society whose members acted in concert, bound together by contractual and economic ties. The pieces on the chessboard were more than subjects; they were individuals, playing by the rules. Rabbits For Dummies Routledge Confessions of a Wayward Catholic is a hilarious yet insightful account of Frank Scoblete's years from kindergarten through grandparenthood as a confused, wayward, seemingly ever-sinning Catholic. Join Frank for a possibly hell-bound ride as he attempts to understand what God and religion are all about. Will Frank reach the pearly gates

or be banished to eternal damnation? "I love my husband but there is stuff in this book that is disgraceful and should never have been written!" - Alene Scoblete, wife "Francis Scoblete has been a major sinner ever since he came to elementary school. I watched him closely at the dances." - Sister Jerome Blake, in charge of making sure girls and boys slow danced a foot apart. "I don't know why Jewish kids went to a Catholic school but I'm proud they did well in religion." - Chief Rabbi Sol Bernstein "I believe that you should love your neighbor as yourself. Luckily, Frank lives in another town and is not my neighbor." - Jesus Christ "Scoblete says I

have no sense of humor. I will afflict him with boils and sores over his whole body, just like I did Job." - God "Frank Scoblete has been wayward for over six decades. He's my main man!" - Satan

Maritime security is of vital importance to Australia and New

Zealand as both countries depend on maritime transport for their economic survival. Since the events of September 11th 2001, significant questions have been raised as to whether Australia and New Zealand are adequately prepared for the consequences of a major disruption to global shipping following a terrorist attack on a leading regional port such as Hong Kong or Singapore. Considerable efforts have also been undertaken to improve responses to an

array of maritime security threats, such as transnational crime, environmental pollution, and piracy and armed robbery. This volume identifies those issues that particularly affect Australia and New Zealand ' s maritime security, evaluating the issues from legal and political perspectives, and proposes methods for improving maritime security in the two countries. While the focus is primarily on Australia and New Zealand, the scope

extends to regional considerations, addressing matters related to Pacific Island states, Southeast Asia and the Antarctic and sub-Antarctic region. The book also addresses strategic partnerships examining the influence of the United States, and analyses issues within the broad framework of international law and politics. Maritime Security: International Law and Policy Perspectives from Australia and New Zealand will be of great interest to scholars of

international law, international relations and maritime affairs, maritime industry professionals, private and government lawyers, as well as diplomats, consuls and government officials. A detailed and comprehensive study of the carrier formations of the Pacific War, including their origins, development and key battles from the Coral Sea, through Midway and Guadalcanal to the battle of the Philippine Sea. The defining feature of the Pacific Theatre of World War II was the clash of carriers that ultimately decided the fate of nations. The names of these battles have become legendary as some of the most epic encounters in the history of naval warfare. Pre-war assumptions about

the impact and effectiveness of carriers were comprehensively tested in early war battles such as Coral Sea, while US victories at Midway and in the waters around Guadalcanal established the supremacy of its carriers. The US Navy's ability to adapt and evolve to the changing conditions of war maintained and furthered their advantage, culminating in their comprehensive victory at the battle of the Philippine Sea, history's largest carrier battle, which destroyed almost the entire Japanese carrier force. Examining the

ships, aircraft and doctrines of both the Japanese and US navies and how they changed during the war, Mark E. Stille shows how the domination of American carriers paved the way towards the Allied victory in the Pacific.
