National Book Award Finalist A heartstrong story of family and romance, tribulation and tenacity, set on the High Plains east of Denver. In the small town of Holt, Colorado, a high school teacher is confronted with raising his two boys alone after their mother retreats first to the bedroom, then altogether. A teenage girl—her father long since disappeared, her mother unwilling to have her in the house—is pregnant, alone herself, with nowhere to go. And out in the country, two brothers, elderly bachelors, work the family homestead, the only world they've ever known. From these unsettled lives emerges a vision of life, and of the town and landscape that bind them together—their fates somehow overcoming the powerful circumstances of place and station, their confusion, curiosity, dignity and humor intact and resonant. As the milieu widens to embrace fully four generations, Kent Haruf displays an emotional and aesthetic authority to rival the past masters of a classic American tradition.

The chapters of this book are nothing but mirrors for seeing your "self" from different angles. And though the journey we are about to embark on is an inner one, it will draw upon every aspect of your life. The only requirement asked of you is the willingness to honestly look at yourself in the most natural, intuitive manner. Remember, if we are seeking the root of "self," what we are actually seeking is you. As you read through these pages, you will find that you know much more than you thought you did about some very deep subjects. The fact is, you already know how to find yourself; you have just gotten distracted and disoriented. Once refocused, you will realize that you not only have the ability to find yourself, you have the ability to free yourself. Whether you choose to do so or not is entirely up to you. But upon completion of your journey through these chapters, there will be no more confusion, no more lack of empowerment, and no more blaming others. You will know exactly what must be done. And should you choose to devote yourself to the ongoing journey of self-realization, you will develop a tremendous sense of respect for who you really are. It is only then that you will come to appreciate the full depth of meaning in the advice: "This above all: to thine own self be true."

Between Dignity and Despair Routledge

BEST BOOK OF THE YEAR: The New York Times • The Washington Post • Fortune • Bloomberg From two of America's most revered political journalists comes the definitive biography of legendary White House chief of staff and secretary of state James A. Baker III: the man who ran Washington when Washington ran the world. For a quarter century, from the end of Watergate to the aftermath of the Cold War, no Republican won the presidency or ran the White House without the advice of James Addison Baker III. A scion of Texas aristocracy who became George H. W. Bush's tennis partner, Baker had never worked in Washington until a devastating family tragedy struck when he was thirty-nine. Within a few years, he was leading Gerald Ford's campaign and would go on to manage a total of five presidential races and win a sixth for George W. Bush in a Florida recount. He ran Ronald Reagan's White House and became the most consequential secretary of state since Henry Kissinger. Ruthlessly partisan during campaign season, Baker became an indispensable dealmaker after the election. He negotiated with Democrats at home and Soviets abroad, rewrote the tax code, assembled the coalition that won the Gulf War, brokered the reunification of Germany, and helped bring a decades-long nuclear superpower standoff to an end. Brilliantly crafted by Peter Baker of The New York Times and Susan Glasser of The New Yorker, *The Man Who Ran Washington* is a page-turning study in the acquisition, exercise, and preservation of power in late twentieth-century America and the story of Washington when Washington ran the world. Their masterly biography is necessary reading and destined to become a classic.

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates—and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

The sibling stands out as a ubiquitous—yet unacknowledged—conceptual touchstone across the European long nineteenth century. Beginning in the late eighteenth century, Europeans embarked on a new way of classifying the world, devising genealogies that determined degrees of relatedness by tracing heritage through common ancestry. This methodology organized historical systems into family trees in a wide array of new disciplines, transforming into siblings the closest contemporaneous terms on trees of languages, religions, races, nations, species, or individuals. In literature, a sudden proliferation of siblings—often incestuously inclined—negotiated this confluence of knowledge and identity. In all genealogical systems the sibling term, not quite same and not quite other, serves as an active fault line, necessary for and yet continuously destabilizing definition and classification. In her provocative book, Stefani Engelstein argues that this pervasive relational paradigm shaped the modern subject, life sciences, human sciences, and collective identities such as race, religion, and gender. The insecurity inherent to the sibling structure renders the systems it underwrites fluid. It therefore offers dynamic potential, but also provokes counterreactions such as isolationist theories of subjectivity, the political exclusion of sisters from fraternal equality, the tyranny of intertwined economic and kinship theories, conflicts over natural kinds and evolutionary speciation, and invidious anthropological and philological classifications of Islam and Judaism. Integrating close readings across the disciplines with panoramic intellectual history and arresting literary interpretations, *Sibling Action* presents a compelling new understanding of systems of knowledge and provides the foundation for less confrontational formulations of belonging, identity, and agency.

On August 14, 2011, when I was in Kandergrund in the Bernese Highlands in Switzerland an important connection became very clear to me. I recognized a spiritual cause for why we are losing part of our youth. I was very shocked. I thought of my children and grandchildren. Since then I have been intensively occupied with this subject. Now I believe that the same spiritual cause is behind many of our problems; specifically the personal problems, in the local churches and the world-wide church. It is the lack of the Holy Spirit. If this is the cause, then we should urgently address this issue. If the cause can be eliminated or considerably reduced, then many problems will become superfluous or will be resolved.

A huge bestseller in Germany for over a year, *My Father's Country* offers extraordinarily moving and riveting insight into the experience of being German in the last century. On August 26, 1944, Hans Georg Klamroth, officer in the German army and member of the SS, was executed for high treason for his participation in the July 1944 plot to assassinate Hitler. *My Father's Country* is the extraordinary work of Klamroth's daughter, Wibke, born only six years before her father's death. Decades later, Bruhns was watching a TV documentary about the events of July 1944 when images of her father in the court room suddenly appeared on screen. "I stare at this man with the empty face. I don't know him. But I can see myself in him—his eyes are my eyes; I know I resemble him. I know I wouldn't be here without him. And what do I know about him? Nothing at all." Based on an extensive collection of family letters, private diaries, photographs and even menus, *My Father's Country* traces Wibke Bruhns' father's, and more widely, her well-to-do merchant family's, life in the Germany of the late nineteenth and early twentieth centuries. With it, Bruhns not only brings to life the nuances of this world—its culture and its assumptions, politics and beliefs—but also comes to know, finally, the mysterious father she barely remembers.
