Report of the Bureau of Labor of the Province of Ontario for the Year Ending December 31st ... Foundation Press

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

*When Workers Shot Back: Class Conflict from 1877 to 1921* BRILL  
American historians tend to believe that labor activism was moribund in the years between the First World War and the New Deal. Jon Huibregtse challenges this perspective in his examination of the railroad unions of the time, arguing that not only were they active, but that they made a big difference in American Labor practices by helping to set legal precedents. Huibregtse explains how efforts by the Plumb Plan League and the Railroad Labor Executive Association created the Railroad Labor Act, its amendments, and the Railroad Retirement Act. These laws became models for the National Labor Relations Act and the Social Security Act. Unfortunately, the significant contributions of the railroad laws are, more often than not, overlooked when the NLRA or Social Security are discussed. Offering a new perspective on labor unions in the 1920s, Huibregtse describes how the railroad unions created a model for union activism that workers' organizations followed for the next two decades.

The United States looks today much like it did in the late 19th to early 20th century. Open class conflict is disappearing, strikes are becoming rare, unions are declining, corporate power is growing, and work is insecure and contingent. When *Workers Shot Back: Class Conflict from 1877 to 1921* explores one of the most tumultuous times in United States history. Self-organised workers recomposed their power by devising new strategies and tactics to disrupt the capitalist economy and extract concessions. Mine, railroad, steel, and iron workers pursued a strategy of tension that sometimes erupted into militant class conflict and general strikes in which workers took over and ran a number of cities. Turning common wisdom on its head, *When Workers Shot Back* argues that the escalation of working class conflict drives rather than reacts to the consolidation and reorganisation of capital and economic and political reform of the state. Studying the class composition of this period illustrates why workers escalated the intensity of their tactics, even using tactical violence, to extract concessions and reforms when all other efforts to do so were blocked, coopted or repressed.

The Solutionary Rail vision draws unlikely allies together. It provides common cause to workers, farmers, tribes, urban and rural communities via the tracks and corridors that connect them. Part action plan and part manifesto, this book launches a new people-powered campaign to transform the way we use trains and the corridors they travel through.
