Book Description Fate can be unkind. Would you dare to look back and risk her wrath? When you're a child of the favela, in the Valley of Steel, you know that Fate comes like a whirlwind, lifting some to great heights and slapping others down with no reason. Ivan, rescued first from an orphanage in the slums of Rio de Janeiro and then from the bleak streets of Ipatinga in Brazil's Valley of Steel, has been favored by Fate. When a call from Brazil interrupts his privileged life in America, he learns his best friend has committed suicide in the rugged Valley of Steel and only he knows the real reasons why. This is the story of one man's journey home after a self-inflicted exile. The story of a boy who saw more than any child should, and the man he grew into--and how that man came back to the Valley of Steel to avenge his childhood and stare down the demons of his past. It is a story of survival, redemption, and joy. Of childhood memories that burn in the soul--and what happens when one man has courage enough to fan the flames and face the fire. Brilliant horsemen and great fighters, the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC. Their steppe homeland bordered on a number of sedentary states to the south - the Chinese, the Persians and the Greeks - and there were, inevitably, numerous interactions between the nomads and their neighbours. The Scythians fought the Persians on a number of occasions, in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe. Relations with the Greeks around the shores of the Black Sea were rather different - both communities benefiting from trading with each other. This led to the development of a brilliant art style, often depicting scenes from Scythian mythology and everyday life. It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life: their beliefs, their burial practices, their love of fighting, and their ambivalent attitudes to gender. It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials, from the graves of kings on the Pontic steppe, with their elaborate gold work and vividly coloured fabrics, to the frozen tombs of the Altai mountains, where all the organic material - wooden carvings, carpets, saddles and even tattooed human bodies - is amazingly well preserved. Barry Cunliffe here marshals this vast array of evidence - both archaeological and textual - in a masterful reconstruction of the lost world of the Scythians, allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

This book offers an overview of global cinema that addresses borders as spaces of hybridity and change. In this collection of essays, contributors examine how cinema portrays conceptions of borderlands informed by knowledge, politics, art, memory, and lived experience, and how these constructions contribute to a changing global community. These essays analyze a variety of international feature films and documentaries that focus on the lives, cultures, and politics of borderlands. The essays discuss the ways in which conflicts and their resolutions occur in borderlands and how they are portrayed on film. The volume pays special attention to contemporary Europe, where the topic of shifting border identities is one of the main driving forces in processes of European unification.

In a Europe without borders, where social norms have become fragile, a son must confront the sins of his father and grandfather, and invent new strategies for survival. A young boy grows up with a loving father who has little respect for the law. They are always on the run, and as they move from place to place, the boy is often distraught to leave behind new friendships. Because it would be dicey for him to go

to school, his anarchistic father gives him an unconventional education intended to contradict as much as possible the teachings of his own father, a preacher and a pervert. Ten years later, when the boy is entering adulthood, with a fake name and a monotonous job, he tries to conform to the demands of ordinary life, but the lessons of the past thwart his efforts, and questions about his father's childhood cannot be left unanswered. Spanning the mid-1980s to early-twenty-first-century in Copenhagen, this coming-of-age novel examines what it means to be a stranger in the modern world, and how, for better or for worse, a father's legacy is never passed on in any predictable fashion.

Why did Lithuania's dictator in the 1920s (the pro-Nazi Augustinas Voldemaras) kick the author out of the country for writing this seemingly harmless book? What was the significance of the fact that the author's father tutored a teenage Lenin while both were in law school in Russia? And how was this ground-breaking equivalent of "Lithuanian History for Dummies" about a century ahead of its time? This centennial edition of a ground-breaking classic, translated into smooth and idiomatic English, with numerous images that bring the story to life, includes an introduction written by the author's grandson—a Harvard graduate and PhD in political science—in which he describes the detective work through which he solved various mysteries relating to the book. He also describes three interesting parallels that were impressed on him, including the striking similarities between the dictator Voldemaras and the present-day American authoritarian politician Donald J. Trump. In a sense, this book represents a case study in the power of the written word and the repercussions that its exercise can generate. One hundred years later, at a time of heightened assault on both truth and freedom of speech worldwide—with authoritarianism steadily on the rise—these themes remain as timely as ever.

The Silver Chain (Unbreakable Trilogy, Book 1) Routledge

This book presents inter-disciplinary research on contemporary borders with contributions from scholars and cultural practitioners located in different contexts in the Americas and South Asia. There has been significant sociological work on borders; however there is a relative dearth of humanities research on contemporary border realities, particularly in South Asia. This volume introduces frameworks of critical insights and knowledge on border narratives and cultural productions. It addresses and goes beyond the impact of the partition in South Asia to train a unique comparative and aesthetic lens on borders and borderlands in relation to Latin America and the U.S.A. through oral narratives, photographs, 'objects', films, theatre, journals and songs. It maps border perspectives and their reception in a framework of cultural politics. It revolves around themes such as violence and modes of survival; women's narratives of migration, trafficking and incarceration; abduction of children; vulnerability as experience; rationalities of mass killings; and proliferation of countercultures to map border perspectives in a framework of cultural politics. First of its kind, the volume will be useful to scholars and researchers of comparative literary and cultural studies, South Asian studies, Latin American studies, border studies, arts and aesthetics, visual studies, sociology, comparative politics, international relations, and peace and conflict resolution studies.

This book facilitates exchanges between scholars and researchers from around the world on China-Eurasia relations. Comparing perspectives and methodologies, it promotes interdisciplinary dialogue on China's pivot towards Eurasia, the Belt and Road initiative, the Shanghai Cooperation Organization, Beijing's cooperation and arguments with India, the EU, Western Balkans and South Caucasus states and the Sino-Russian struggle for multipolarity and multilateralism in Eurasia. It also researches digitalization processes in Eurasia, notably it focuses on China's Silk Road and Digital Agenda of Eurasian Economic Union. Multipolarity without multilateralism is a dangerous mix. Great power competitions will remain. In the Asian regional system more multilateral cushions have to be developed. Scholars from different nations including China, India, Russia, Austria, Armenia, Georgia, United Arab Emirates and Montenegro introduce their own, independent research, making recommendations on the developments in China-Eurasia relations, and demonstrating that through joint discussions it is possible to find ways for cooperation and for ensuring peaceful coexistence.
