Chicago-born artist Frederic Clay Bartlett created Bonnet House in 1920 on South Florida oceanfront land given to him and his second wife Helen Louise Birch by her father, Hugh Taylor Birch, a prominent Chicago attorney, real estate investor and naturalist. For more than seventy years, Bartletts and Birches then resided on and sustained and enhanced these 35 acres, their buildings and decorative contents. Today, the estate is a preeminent house museum dedicated not only to historic and environmental preservation, but also to learning and creative expression much like the Bartletts and Birches themselves. In both words and lush color photography, (The Book) tells the story of both Bonnet House Museum & Gardens and the creativity of these families. Thrice married and twice widowed, artist and collector

Frederic Bartlett joined his life with three artistically talented women. His first wife, artist Dora Tripp, helped design some of Frederic's early Chicago murals. Helen Louise Birch wrote and published piano music and romantic poetry and assisted Frederic in assembling a preeminent collection of post-impressionist art. Third wife Evelyn Fortune Lilly painted and exhibited vibrant portraits and still lifes. She also collected china and animal figures, raised a thousand orchids and nurtured a virtual menagerie. Their influences can all be seen at Bonnet House today. Chicagoan Hugh Taylor Birch gave birth to the Bonnet House story in 1894 when he began to acquire hundreds of acres of undeveloped oceanfront land where he could grow fruit trees and other tropical flora. Son-in-law Frederic Bartlett's eclectic design for a Caribbean-style plantation house then provided the canvas on which to display both the family's extensive collections and Frederic's whimsically painted decorations on walls, ceilings and floors. But the history of Bonnet House also reflects more ancient times, when not only aboriginal people camped here, but also early Northern European explorers who predated even the Spanish conquistadors. Thus the story of Bonnet House Museum & Gardens told here spans and parallels virtually all of American history and makes a visit both to these pages and to the estate a uniquely educational and entertaining experience.

Although much has changed in schools in recent years, the power of differentiated instruction remains the same—and the need for it has only increased. Today's classroom is more diverse, more inclusive, and more plugged into technology than ever before. And it's led by teachers under enormous pressure

to help decidedly unstandardized students meet an expanding set of rigorous, standardized learning targets. In this updated second edition of her best-selling classic work, Carol Ann Tomlinson offers these teachers a powerful and practical way to meet a challenge that is both very modern and completely timeless: how to divide their time, resources, and efforts to effectively instruct so many students of various backgrounds, readiness and skill levels, and interests. With a perspective informed by advances in research and deepened by more than 15 years of implementation feedback in all types of schools, Tomlinson explains the theoretical basis of differentiated instruction, explores the variables of curriculum and learning environment, shares dozens of instructional strategies, and then goes inside elementary and secondary classrooms in nearly all subject areas to illustrate how real teachers are applying differentiation principles and strategies to respond to the needs of all learners. This book's insightful guidance on what to differentiate, how to differentiate, and why lays the groundwork for bringing differentiated instruction into your own classroom or refining the work you already do to help each of your wonderfully unique learners move toward greater knowledge, more advanced skills, and expanded understanding. Today more than ever, *The Differentiated Classroom* is a must-have staple for every teacher's shelf and every school's professional development collection.

Do you believe God can take what hurt and embarrassed you and use it for your good? I did not, until I was arrested for a crime I did not commit - a crime punishable up to 15 years in prison. My world was turned upside down and I had lost the will to live, but the things that were meant to harm

me, God meant it for good. Through my hardships, I witnessed God work in my life like never before! *A Gate Called Beautiful: How God Transforms Your Pain Into Power* is a deeply personal and honest memoir devotional. During my darkest hour, I tried to make sense of what was going on in my life by asking, "Where is God, and why is He allowing this to happen?" Like me, you may currently find yourself in between where and why, but trust me when I say, that is where God does some of His best work. Along this journey you will discover how God can use anything to bless you, even your brokenness. "Very inspiring and motivational - pulls you in to want to read more." - Reverend Shedric McGauley Jr.

NEW YORK TIMES EDITORS' CHOICE • A powerful, poetic memoir about what it means to exist as an Indigenous woman in America, told in snapshots of the author's encounters with gun violence. Finalist for the Dayton Literary Peace Prize • Goop Book Club Pick • "Essential . . . We need more voices like Toni Jensen's, more books like Carry."—Tommy Orange, New York Times bestselling author of *There There* Toni Jensen grew up around guns: As a girl, she learned to shoot birds in rural Iowa with her father, a card-carrying member of the NRA. As an adult, she's had guns waved in her face near Standing Rock, and felt their silent threat on the concealed-carry campus where she teaches. And she has always known that in this she is not alone. As a Métis woman, she

is no stranger to the violence enacted on the bodies of Indigenous women, on Indigenous land, and the ways it is hidden, ignored, forgotten. In *Carry*, Jensen maps her personal experience onto the historical, exploring how history is lived in the body and redefining the language we use to speak about violence in America. In the title chapter, Jensen connects the trauma of school shootings with her own experiences of racism and sexual assault on college campuses. "The Worry Line" explores the gun and gang violence in her neighborhood the year her daughter was born. "At the Workshop" focuses on her graduate school years, during which a workshop classmate repeatedly killed off thinly veiled versions of her in his stories. In "Women in the Fracklands," Jensen takes the reader inside Standing Rock during the Dakota Access Pipeline protests and bears witness to the peril faced by women in regions overcome by the fracking boom. In prose at once forensic and deeply emotional, Toni Jensen shows herself to be a brave new voice and a fearless witness to her own difficult history—as well as to the violent cultural landscape in which she finds her coordinates. With each chapter, *Carry* reminds us that surviving in one's country is not the same as surviving one's country.

WALL STREET JOURNAL BESTSELLER As featured in the New York Post and as seen on Tucker Carlson, Fox and Friends, Martha MacCallum, and more. Voted by Book Authority as one of the ten best social policy books of all time! The Parkland school shooting was the most avoidable mass murder in American history. And the policies that made it inevitable are being forced into public schools across America. "After my sister Meadow was murdered at

Marjory Stoneman Douglas High School, the media obsessed for months about the type of rifle the killer used. It was all clickbait and politics, not answers or justice. That wasn't good enough for us. My dad is a real tough guy, but Meadow had him wrapped around her little finger. He would do anything she wanted, and she would want him to find every answer so that this never happens again. My dad teamed up with one of America's leading education experts to launch his own investigation. We found the answers to the questions the media refused to ask. Questions about school safety that go far beyond the national gun debate. And the answers to those questions matter for parents, teachers, and schoolchildren nationwide. If one single adult in the Broward County school district had made one responsible decision about the Parkland shooter, then my sister would still be alive. But every bad decision they made makes total sense once you understand the district's politically correct policies, which started here in Broward and have spread to thousands of schools across America."

The School Discipline Consensus Report Thomas Dunne Books

Access issues are pivotal to almost all charter school tensions and debates. How well are these schools performing? Are they segregating and stratifying? Are they public and democratic? Are they fairly funded? Can apparent successes be scaled up? Answers to all these core questions hinge on how access to charter schools is shaped. This book describes the incentives and pressures on charter schools to restrict access and examines how charters navigate those pressures, explaining access-restricting practices in relation to the ecosystem within which charter schools are created. It also explains how charters have sometimes responded by resisting the pressures and sometimes by surrendering to them. The text presents analyses of 13 different types of practices around access, each of which shapes the school's enrollment. The authors conclude by offering

recommendations for how states and authorizers can address access-related inequities that arise in the charter sector. School's Choice provides timely information on critical academic and policy issues that will come into play as charter school policy continues to evolve. Book Features: Examines how charter schools control who gains and retains access. Explores policies and practices that undermine equitable admission and encourage opportunity hoarding. Offers a set of policy recommendations at the state and federal level to address access-related issues.

Would you like to know the truth about Albert Einstein from a friend who really knew him? Much of what is reported by some historians about his life is consistent with his personal writings, but much is conjecture based on people who never knew him, and they simply made up whatever the writers thought he must be like. After nearly two years of personal conversation directly with Einstein, I have tried to recall specific things about him which may be of interest to you. He needs to be remembered for the truth about his contributions to the whole world. He was indeed a rare bird.
