Although much has changed in schools in recent years, the power of differentiated instruction remains the same—and the need for it has only increased. Today's classroom is more diverse, more inclusive, and more plugged into technology than ever before. And it's led by teachers under enormous pressure to help decidedly unstandardized students meet an expanding set of rigorous, standardized learning targets. In this updated second edition of her best-selling classic work, Carol Ann Tomlinson offers these teachers a powerful and practical way to meet a challenge that is both very modern and completely timeless: how to divide their time, resources, and efforts to effectively instruct so many students of various backgrounds, readiness and skill levels, and interests. With a perspective informed by advances in research and deepened by more than 15 years of implementation feedback in all types of schools, Tomlinson explains the theoretical basis of differentiated instruction, explores the variables of curriculum and learning environment, shares dozens of instructional strategies, and then goes inside elementary and secondary classrooms in nearly all subject areas to illustrate how real teachers are applying differentiation principles and strategies to respond to the needs of all learners. This book's insightful guidance on what to differentiate, how to differentiate, and why lays the groundwork for bringing differentiated instruction into your own classroom or refining the work you already do to help each of your wonderfully unique learners move toward greater knowledge, more advanced skills, and expanded understanding. Today more than ever, *The Differentiated Classroom* is a must-have staple for every teacher's shelf and every school's professional development collection.

WALL STREET JOURNAL BESTSELLER As featured in the New York Post and as seen on Tucker Carlson, Fox and Friends, Martha MacCallum, and more. The Parkland school shooting was the most avoidable mass murder in American history. And the policies that made it inevitable are being forced into public schools across America. "After my sister Meadow was murdered at Marjory Stoneman Douglas High School, the media obsessed for months about the type of rifle the killer used. It was all clickbait and politics, not answers or justice. That wasn't good enough for us. My dad is a real tough guy, but Meadow had him wrapped around her little finger. He would do anything she wanted, and she would want him to find every answer so that this never happens again. My dad teamed up with one of America's leading education experts to launch his own investigation. We found the answers to the questions the media refused to ask. Questions about school safety that go far beyond the national gun debate. And the answers to those questions matter for parents, teachers, and schoolchildren nationwide. If one single adult in the Broward County school district had made one responsible decision about the Parkland shooter, then my sister would still be alive. But every bad decision they made makes total sense once you understand the district's politically correct policies, which started here in Broward and have spread to thousands of schools across America." —Hunter Pollack, "Foreword"

Solo by Kwame Alexander and Mary Rand Hess is a New York Times bestseller! Kirkus Reviews said Solo is, "A contemporary hero's journey, brilliantly told." Through the story of a young Black man searching for answers about his life, Solo empowers, engages, and encourages teenagers to move from heartache to healing, burden to blessings, depression to deliverance, and trials to triumphs. Blade never asked for a life of the rich and famous. In fact, he'd give anything not to be the son of Rutherford Morrison, a washed-up rock star and drug addict with delusions of a comeback. Or to no longer be part of a family known most for lost potential, failure, and tragedy, including the loss of his mother. The one true light is his girlfriend, Chapel, but her parents have forbidden their relationship, assuming Blade will become just like his father. In reality, the only thing Blade and Rutherford have in common is the music that lives inside them. And songwriting is all Blade has left after Rutherford, while drunk, crashes his high school graduation speech and effectively rips Chapel away forever. But when a long-held family secret comes to light, the music disappears. In its place is a letter, one that could bring Blade the freedom and love he's been searching for, or leave him feeling even more adrift. "The voice of culturally and linguistically diverse students is often unheard. This voice, anchored in their experiences as children of immigrant families in one of the toughest neighborhoods on Oahu, highlights what it means to be adolescent in today's Hawaii. Featured in this book are the stories of long-term English Language Learners (ELLs), newcomers, and students who are part of a 1.5 generation of immigrants. Ultimately, this anthology elevates the voice of these students who have the ability and power to tell their own stories" -- Page 4 of cover.
