Updated content reflects the revisions and updates in Lewis’s Medical-Surgical Nursing, 11th Edition main text.

Medical Surgical Nursing Elsevier Health Sciences Disability is a universal aspect of the human experience. It will affect all of us, either directly or indirectly, at some point in our lives. Healthcare professionals frequently provide care for and communicate with people who have disability. Many care providers have acknowledged that additional education would help them deliver optimal evidence-based care. The educational gap has broad implications and repercussions for the care of this population. Delivering Quality Healthcare for People With Disability provides a road map for nurses, nursing students, and other healthcare professionals to deliver quality healthcare for individuals with dis-ability. From social determinants of health to disability models to an understanding of different types of disability, author Suzanne Smeltzer helps nurses take the lead in redefining education and addressing the needs of people with disability. Virtual Clinical Excursions LWW The sixth edition includes a new emphasis on clinical decision-making for patient-centered collaborative care and more streamlined and balanced coverage of the core body of knowledge needed for safe clinical practice. There is also expanded coverage of emergency and disaster preparedness along with an enhanced "Get Ready for the NCLEX Examination" feature that includes the addition of new NCLEX Challenge questions. --from publisher description.
