Millions of students seek short- and long-term study abroad options every year, and this trend is a key illustration of the internationalization of higher education. Because a global perspective has become mandatory in the largely globalized workforce, many institutions look to study abroad programs to prepare their students. This outbound mobility has the potential to contribute to greater understanding between cultures, countries, and individuals. The Handbook of Research on Study Abroad Programs and Outbound Mobility offers a comprehensive look into motivations for and opportunities through all forms of outbound mobility programs. By providing empirically-based

research, this publication establishes the benefits, difficulties, and rewards of building a framework to support international students and programs. It is an invaluable resource for academics, students, policy makers, course developers, counselors, and cross-cultural student advisors.

Harper Collins

The bestselling coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-

discovery. Few other books in our time have touched so many readers.

Biology 2e Arco

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

A Complete Guide to Educational, Technical, Professional and Academic Qualifications in Britain Macmillan Reference USA

How can we rebuild America so that it is a land with opportunity for all, wherever we live, whatever our complexion? Tightrope outlines a better path for our nation, but first it takes us through an "other America"

where wages are low and stagnant, decent jobs are scarce, racial inequity is stark, and Americans die of drug overdoses every seven minutes. Kristof and WuDunn tell the story of America's crisis partly through the lives of friends Kristof grew up with in rural Yamhill, Oregon, a working-class area that was hit badly by the disappearance of blue-collar jobs. Their powerful personal stories and those of others bring to life how we got into this mess and also show a path by which we can right ourselves as a country, redress racial inequity, reduce inequality, and build economic opportunity. Tightrope is a story of hope that is riveting, deeply personal, and impossible to ignore. Book jacket.
