BSRIA Manuals

Commissioning

The 1st edition of the guide was created in 1991, to provide

guidelines regarding pre-commissioning cleaning.

Pre-commissioning cleaning, includes the flushing of heating and cooling pipework systems, as well as using biocides and other appropriate measures where needed, to prevent damage to systems.

[Introduction to Commissioning - BSRIA](#)

The first edition of the publication BSRIA Application Guide, AG 2/89: Commissioning of water systems in buildings was

produced as part of a research project in 1989 under the sponsorship of the Department of the Environment, Construction Directorate, and under the direction of an industry steering group.

Commissioning Management - A Project Management Derivative

...

Follow recognised standards and guidance for the pre-commission clean. You should refer to the British Standard BS 8552:2012 and the accompanying BSRIA BG29/2012 guidance note for a comprehensive guide to system flushing and pre-commission

cleaning. These documents set out what a contractor should do both before the flushing starts, and during the process.
