"Present turns to past and future turns to present, but the past never changes its stance..." What we do in the present is not a big deal, but after it has gone into the past, it will become something memorable. In our past we had done so many nonsensical things, but now when we remember those days a smile comes to our lips. "Our present is like watching a horror film, and our past is like the experience that we enjoyed in the cinema hall." Words of the past: the story is about a person, who even after completing his graduation didn't gain any sense about his future. Seasons have changed but he still didn't get any idea. Like others he has a life too, like others he too enjoyed his life, but not like others. He went back to his past. His school, his college, his nonsense's, his crushes, his friends, his girls, his enjoyment, silly fights, and his past life... These thoughts made sense to him. "Life means some of years, emotions and notorious things. Behind everything a strange emotional experience will be present." His sensible thoughts on his past make sense to him. So he decided to make it into a book. He made his past into a book. Are you ready to recollect your past?
