When a Japanese patrol plane is shot down by a Chinese fighter jet during a real war, Buck Danny is called upon to investigate. With the help of his loyal sidekick, Jip, they set sail on the Cap Padaran: a mysterious, poetry-reciting man who has been exiled to the island of Lilliput. Together, they join Caspian's voyage on the ship to find the seven lords of the Seven Realms, who were banished when Miraz took over the throne. As they face many dangers and wonders, including the place where the gods live, they learn the meaning of true friendship and the power of love. In the Shadow of the Moons: The Spirit of Utopia provides a powerful story of American music, of life with Waylon and Jessi, and of the love that endured. It is an intimate, imagined account of the world's end, and the beginning of a new era. Buck Danny's adventures continue in Buck Danny: The Outlaw and the Lady, a thrilling tale of love, betrayal, and revenge. Will Buck Danny be able to save the day and restore peace to the Seven Realms? Only time will tell.
