**Harley-Davidson Knucklehead** Legare Street Press

Among all the older Harley-Davidson models, none holds the allure of the Panhead. Manufactured from 1948 to 1965, the Panhead might be called the first modern Harley. Rick Schunk starts the discussion of Panhead restoration with a brief history lesson, followed by a list of things to look for, and avoid, when shopping for a Panhead. Before starting on a restoration, you have to assess both the machine's needs and your own abilities. The next section is dedicated to the bike's chassis, like the rest of the book, this part is made up of photo sequences that explain exactly how to disassemble the chassis, repair the fork, and lace the wire wheels. Other chapters cover paint, engines and transmissions including the overhaul of both an engine and a transmission. Related components like the carburetor, primary drive, clutch and electrical components are covered as well. While there are other restoration guides, there are no how-to restoration books that provide extensive, start-to-finish photo sequences explaining each major operation necessary to the restoration of a Harley-Davidson Panhead.

This book was produced to commemorate Buell Motor Company's 25th anniversary.

Illustrated by hundreds of photographs from private collections and corporate archives, it covers Buell's history from inception to the present. Erik Buell is, of course, at the center of this inspiring story, but the company has thrived not just because of one energetic, visionary man, but because that man was able to inspire others around him to give 110 percent to their common objectives. This story is as much about the people of Buell as it is the motorcycles of Buell. Both, as you will learn, are remarkable.

For 100 years, the Isle of Man Tourist Trophy races have been the world's most dangerous organized sporting event. As one of thirty thousand fans who attended the annual spectacle, Mark Gardiner harbored no illusions about his own skill or bravery. He was, however, an avid motorcyclist for whom the race represented a boyhood dream. He went home, quit his job, sold everything he owned, and returned to the Island to race there himself. Riding Man is the account of an Everyman, struggling to qualify for -- and survive -- the TT races. If you're a dreamer, the lesson in this book is that the pursuit of any worthwhile goal involves risks, rewards and, almost inevitably some regrets. If you're not a dreamer, the lesson is more important: the deepest regrets are always over risks not taken.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
