Super Sport Cars Emereo Publishing
Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 19. Chapters: Bugatti Veyron, Bugatti Royale, Bugatti Type 57, Bugatti EB110, Bugatti Prototypes, Bugatti Type 13, Bugatti Type 35, Bugatti Type 49, Bugatti Type 101, Bugatti Type 51, Bugatti Type 46, Bugatti EB118, Bugatti Type 53, Bugatti Type 32, Bugatti Type 52, Dietrich-Bugatti, Bugatti Type 18, Bugatti Type 55, Bugatti Type 8. Excerpt: The Bugatti Veyron EB 16.4 is a mid-engined grand touring car. The Super Sport version is the fastest road-legal production car in the world, with a top speed of 431.07 km/h (267.85 mph). The original version has a top speed of 408.00 km/h (253.52 mph). It was named Car of the Decade (2000-2009) by the BBC television programme Top Gear. Designed and developed by the German Volkswagen Group (based on the Bentley Hunaudieres concept) and produced by Bugatti Automobiles SAS at their headquarters in Chateau Saint Jean in Molsheim (Alsace, France), the Veyron's chief designer was Hartmut Warkuss, and the exterior was designed by Jozef Kaba of Volkswagen, with much of the engineering work being conducted under the guidance of former

Peterbilt Trucks engineer and now Bugatti Engineering chief Wolfgang Schreiber. A number of special variants have been produced, including two targa tops. In December 2010, Bugatti began offering prospective buyers the ability to customize exterior and interiors colours by using the Veyron 16.4 Configurator application on the marque's official website. The car is named after French racing driver Pierre Veyron, who won the 24 hours of Le Mans in 1939 while racing for the original Bugatti company. The 16.4 refers to 16 cylinders and 4 turbochargers. The Veyron's quad-turbocharged W16 engine features a 16 cylinder engine, equivalent to two narrow-angle V8 engines mated in a W configuration. Each cylinder has four valves for a total of sixty four, but the...

Tripoli's Target: A Justin Hall Spy Thriller Knightsville Books

"In a top-ten format presents the worlds fastest cars"--Provided by publisher.
Who Knew? Pacific Learning Inc
The world's #1 action author is back with a new hero! An insane billionaire wants the US presidency and will stop at nothing to get it. Standing in his way is the agent known only by the codename Roman. When the headquarters of the Empire intelligence agency is breached, data is stolen and a top-ranking agent is slain. Roman embarks on a no-holds-barred globetrotting adventure, full of spine-snapping action and heart-stopping thrills as he attempts to track down those

responsible. The trail leads him to a terrorist group backed by a billionaire with presidential ambitions. Roman must defy death and fight against the powerful madman's seemingly limitless resources, or the world will be plunged into conflict. And who - or what - is Black Lotus? "Gripping, non-stop action thrills from beginning to end. You'll be on the edge of your seat." - Jack Massacre, President of the AAAAA (Action Adventure Authors Association of America)

365 Sports Cars You Must Drive Preface Publishing

"Find out ... which supercars have over 1000 horsepower? Which engine is made from magnesium? Which supercar has tires filled with nitrogen? Featuring the ... Pagani Huayra, Gumpert Apollo Sport, Bugatti Veyron Super Sport, Chevrolet Corvette ZR1"--Page 4 of cover.

Car Motorbooks

365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase "getting there is half the fun" must have owned a sports car. And the wag who suggested that "it's the journey not the destination"? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck? magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated

profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

Turbochargers Lulu Press, Inc

Enjoy the first three electrifying spy thrillers in the Justin Hall series from Ethan Jones, the master of international intrigue and bestselling writer. Meet Justin Hall, a deadly covert assassin working for the Canadian Intelligence Service. He never listened at home; or at school... Why would anyone think he'd listen now? But no one's better at getting the job done. Justin serves alongside his red-tape ripping partner Carrie O'Conner, and together they'll stop at nothing to make sure justice is done. Dispatched to execute near-impossible missions with no time, no back-up, and no options. If you love adrenaline-drenched, heart-pounding suspense, you need Justin Hall... Canadian Assassin

When an act of treason leaves Justin and his Arctic team stranded on the ice, they must fight for survival in a deadly battle at the top of the world. Demoted and demoralized Canadian assassin Justin Hall is desperate to return to field operations. When the agency learns about a potential enemy incursion in the Arctic, he volunteers for the mission. Tried and tested as never before, not knowing the enemy within, he's entangled in a devious treasonous plot... Betrayed, disarmed, and left for dead, how will Justin save himself and his country? *Canadian Assassin, Justin Hall Book One, was previously published as Arctic Wargame. Tripoli's Target How can they stop an assassination if they're protecting the wrong man? Justin Hall and Carrie O'Connor are Canadian Intelligence Service elite operatives in North Africa hot on the trail of an

assassination plot. The intelligence comes from a questionable source, swearing the target is the US president. Suspicions point to a powerful terrorist group bankrolled by an untouchable Saudi prince. What's worse, Justin and Carrie discover something is crucially wrong and need an ingenious solution. Can they stop the Saudi prince, dismantle the plot, and save the life of Tripoli's target? Iranian Protocol Betrayed by one of your own... When the defection of an Iranian nuclear scientist is compromised, CIS spymaster Justin Hall suspects this was an inside job. Unsure who he can trust within his agency, he begins a dangerous game, and soon becomes ensnared in a web of lies and deceit. When a piece of intelligence points to his former boss, Justin is left with no other choice but to go rogue, forging alliances with a sinister Russian oligarch and Yemeni insurgents. How will Justin find out who has put the entire agency in jeopardy and is working with the enemy, when they anticipate his every move? Reviews ????? "I like the way Ethan writes. Excitement on every page! Give me more!" ????? "Relatable characters. Intense action..." ????? "A non-stop, roller-coaster ride of firefights, explosions, and traitors." ????? "Move over Flynn, Child, and Thor, you have a new neighbor. Very enjoyable reads." ????? "Justin Hall is part Bond, part Bourne, and all action." In the vein of Vince Flynn and John le Carre, with clean, explosive plots, and guaranteed non-stop action. Scroll up, click, and join Justin Hall as he embarks on his heart-stopping international missions that will leave you breathless.

Form Follows Function Reaktion Books

The revolution in Transportation

Technology has changed our world.

This book outlines the science behind the way ships, planes, trains, and

automobiles move, as well as how people can survive for short periods underwater. There are diagrams, historic photos, sidebars, and fact boxes that describe travel from the roads of Rome to high-speed rail. All of this knowledge is enhanced with an easy-to-understand question and answer format.

Scholastic Book of World Records 2014 Capstone

This book deals with rotordynamics of automotive turbochargers while encompassing the analysis of the dynamics of rotating machines at very high rotor speeds of 300,000 rpm and above. This interdisciplinary field involves 1. thermodynamics and turbo-matching knowledge to compute working conditions of turbochargers, 2. fluid and bearing dynamics to calculate various operating thrust loads and to design the rotating floating ring bearings (two-oil-film bearings), and 3. tribology to improve the rotor stability and to reduce the bearing friction.

Mathematical background in modeling and simulation methods is necessary; however, the prerequisites have been kept to a minimum. The book addresses both practitioners working in the field of rotordynamics of automotive turbochargers and graduate students in mechanical engineering.

Scorching Supercars Capstone Classroom

Calling all speed demons! Get your motor running with this exciting and educational visual encyclopedia for children. You'll enjoy the ride on more than 1,000 different types of transport. Gently take to the skies in a hot air balloon or race into space on a rocket.

Put yourself in the driving seat with this complete visual guide to vehicles.

Sports Cars 'The Rosen Publishing Group, Inc'

Ever since automobiles were invented, people have been driven to design the most attractive cars possible. Have a gas learning about the history of roadsters and sports cars in this informative title, while also taking the step-by-step drawing instructions for a joyride.

Pocket Genius: Cars Scholastic Inc.

Whether you drool over their horsepower or decry their emissions, the car is an important and ubiquitous part of nearly all of our lives. And the history of their design and the innovations of their technologies can tell us a lot about how our values and attitudes have changed. In this book, Gregory Votolato shows us how and why the automobile has become—since its rise in the late nineteenth century—at once an object of unparalleled popular desire and a hugely problematic emblem of the modern world. Votolato explores the ways that our love-hate relationship with the car has been intimately connected with car design. He tells the story of the rise of the private passenger car and all the psychological,

social, and economic functions it has come to serve beyond mere transportation. Introducing readers to the automotive design process, he traces the lifecycle of the car from the drawing board to the scrapyards, offering insights from key figures in the industry, as well as a careful evaluation of the car's enormous environmental impact. At the same time, he looks at the many cultures tied into the automobile, from drag racing and customizing to the luxury coachcraft of the classic era. Along the way, he takes us for a ride in some of the most famous cars ever to have had their tires inflated, from the Model T to the Tesla. The result is a top-down, thrilling burn through the history of one of our most beloved—and lamented—inventions.

Sports Cars The Player
