### Build your own Motorcycle

A motorcycle lift is designed to raise a motorcycle off the ground to make it easier for the mechanic to repair the motorcycle. If you're handy and mechanical, and repair your own motorcycle, you would probably want to have your own motorcycle lift in your garage [source: Gomestic]. This article will outline the details about how to build a

motorcycle lift.

The first thing you need to rebuild a bike, besides the bike itself, is a proper service manual. The owner's manual that comes from the factory with your bike will get you through some basic maintenance, but a service manual will guide you through everything from changing your oil to completely rebuilding your engine.
