36 Storage Projects Plus Ideas for Organizing Your Home GENERAL PRESS

You might not think it, but home stores carry all the furniture you'd find in a show room; it's just not assembled yet. Black & Decker Readymade Home Furniture shows you how. You can find just about any furnishing imaginable in the aisles of the home goods store—coffee tables, wine racks, chandeliers—with just a little assembly (and creativity) required. In Black & Decker Readymade Home Furniture, you will learn how to re-imagine the big-box building center as a source for stylish, customized home furnishings that are inexpensive and easy to make yourself. Metal connectors, pipes and ductwork, rope, sheet goods, glass, and all varieties of hardware are just a few of the ingredients you can shop for to turn yourself into a furniture maker—without the need to buy a lot of woodworking tools and learn complicated joinery. Inside this book, you will find a wealth of insightful information on how to convert everyday building materials into fine furnishings, along with 24 projects, complete with instructions to get you started. Unique and custom styles and colors, durability (select the quality materials you want), low cost, and a sense of satisfaction are just a few of the benefits you will experience by doing your furniture shopping at your home center or hardware store. A few of the demonstration projects included in Black & Decker Readymade Home Furniture are: Shoe rack from concrete forming tubes Copper pipe tubing pot rack Nuts-and-bolt candle holder Door desk made with axe handle legs Modern media center from angle iron and melamine board Door handle coat rack Ductwork coffee table Bagged concrete planters Faux rock and pump waterfall Grab your tools, because it's time to get creative! One trip to the home center will save you a dozen to the furniture showroom; not to mention time, money, and having to deal with salesmen.

20 Great-looking Projects from Off-the-shelf Lumber Cool Springs Press

The Low-Tech, No-Grow-Lights Approach to Abundant Harvest Year-Round Indoor Salad Gardening offers good news: with nothing more than a cupboard and a windowsill, you can grow all the fresh salad greens you need for the winter months (or throughout the entire year) with no lights, no pumps, and no greenhouse. Longtime gardener Peter Burke was tired of the growing season ending with the first frost, but due to his busy work schedule and family life, didn't have the time or interest in high-input grow lights or greenhouses. Most techniques for growing what are commonly referred to as "microgreens" left him feeling overwhelmed and uninterested. There had to be a simpler way to grow greens for his family indoors. After some research and diligent experimenting, Burke discovered he was right—there was a way! And it was even easier than he ever could have hoped, and the greens more nutrient packed. He didn't even need a south-facing window, and he already had most of the needed supplies just sitting in his pantry. The result: healthy, homegrown salad greens at a fraction of the cost of buying them at the market. The secret: start them in the dark. Growing "Soil Sprouts"—Burke's own descriptive term for sprouted seeds grown in soil as opposed to in jars—employs a method that encourages a long stem without expansive roots, and provides delicious salad greens in just seven to ten days, way earlier than any other method, with much less work. Indeed, of all the ways to grow immature greens, this is the easiest and most productive technique. Forget about grow lights and heat lamps! This book is a revolutionary and inviting guide for both first-time and experienced gardeners in rural or urban environments. All you need is a windowsill or two. In fact, Burke has grown up to six pounds of greens per day using just the windowsills in his kitchen! Year-Round Indoor Salad Gardening offers detailed step-by-step instructions to mastering this method (hint: it's impossible not to succeed, it's so easy!), tools and accessories to have on hand, seeds and greens varieties, soil and compost, trays and planters, shelving, harvest and storage, recipes, scaling up to serve local markets, and much more.

Black & Decker Build Your Own Custom Closet Baker Books

You've seen a few shows on TV, and working with wood looks like it could be quite entertaining and rewarding. How to Plan & Build Bookcases, Cabinets & Shelves Sendpoints

There's almost nothing in the modern home that can delight us more than an intelligently organized, nicely featured closet—a place where things are organized in pleasing geometry, here we can find and retrieve that perfect tie or that just-right sweater, instantly. And there's nothing more disheartening and irritating than that murky closet from the netherworld, where boxes tumble down on our heads whenever the door opens, where the sheer clutter makes it impossible to identify what's inside, much less retrieve the item you need. Consumer desperation is why entire companies have sprung up devoted to closet organizing—it's the reason homeowners sometimes spend literally thousands of dollars to have a custom closet organizer designed and installed. Or, they can buy this book and do it themselves for a fraction of the cost. Today, virtually all the materials and hardware used by custom closet fabricators is available to consumers on the racks of home centers and hardware stores. Build Your Own Custom Closet is the first book to show consumers all the inside tips on designing a custom closet, and how to install it using materials they can buy themselves. This is the book that will lift readers from closet purgatory into the heaven of the well-organized closet—without selling their souls.
