In Building Honda K-Series Engine Performance, author Richard Holdener gives you a detailed description of the K-series engines, the various kinds of aftermarket performance parts available,

and describes how these parts perform on the dyno.

[4 Piston Racing's 1,000hp-Plus Honda K Series Build](#)

First introduced to the US as the engine for the 2002 Acura RSX and Civic Si, The K Series has proven itself a venerable, torque-strong powerplant. The K is a significant departure from the tried-and-true B series in several ways: In addition to VTEC, the K has variable cam timing.

We've done it. Or a 300+
WHP all-motor, pump gas,
K-Swapped street Civic?

We've done it. And what
about a Championship-
winning engine for your
track car? We've done that
too - a lot. At King
Motorsports we take engine
building seriously, every
time. For over 28 years
we've been building race-
winning engines and potent
powerplants for the street.

The Honda K20 engine is
actually more like a
family of engines that
was first introduced in
2001. This engine series,
the K-series, replaced
the B-series of engines

that had previously been used in these applications for 12 years.. The K20 engine series has a number of variants, typically after the K20A they start getting numbered and count up, although some other names do exist.

The 500 Horsepower

Naturally Aspirated K24 Engine by 4Piston

Honda H-Series: Engine Basics and Specs. The Honda H-Series, as we mentioned, is Honda ' s larger performance oriented engine offering. It shares much of its design with the F-Series of engines, in fact, the F20B is essentially just a destroyed H22 which Honda used for racing in the 2-liter class of international racing.
