Tens of thousands of professionals have attended David W. Merrill's acclaimed "Style Awareness Workshops" The goal: improvement of interpersonal effectiveness skills-inspiring better communication, improved productivity, and a more harmonious working environment. Students preparing for business, management, or sales careers can also benefit from Merrill's techniques, presented in Personal Styles & Effective Performance. Merrill's approach emphasizes the interrelationships between behavior and social style-encouraging students to consider how their own actions influence responsiveness from others. Those actions tend to be rooted in one of four primary social styles: Analytical, Amiable, Driving, and Expressive-which readers are invited to compare and contrast with their own styles, as a starting point for potential

improvement. First published in 1981, Personal Styles & Effective Performance continues to be a popular resource for the self-improvement minded. By learning its lessons now, tomorrow's business professionals can have the edge in interpersonal effectiveness-one of the most important facets of a successful career.

Who has time to read text books? As a busy business analysis consultant and instructor, my free time is short and precious. That is why I like to read articles. They are brief and to the point. I like quick reference cards for a similar reason – they offer immediate help. I also like humor in the context of the subject. Laughter keeps me interested and awake. If you're busy like me, this book is for you. It is a collection of short business analysis articles, humorous but pertinent stories and quick reference cards. • If you are a business analyst practitioner, these articles will confirm best practices or provide you additional insight as to why they are best practices; no matter how good you are at eliciting and documenting requirements, you can always improve. • If you are a professor at an institution of higher learning, these articles can serve as a source for discussion at both the graduate and undergraduate level.

From the AuthorGlad to present the latest edition of this BA interview questions and answers book, which is much bigger than the previous edition and has more questions with improved answers and illustrations (wherever needed). This book is written to enable business analysts to succeed in the job interviews. This book covers general, business analysis core skills and situational interview questions with suggested answers.In my professional career, I have interviewed 100s of IT professionals at different levels. I came across several professionals, who could not answer questions as effectively as I would have liked. Even though, I can make out that they knew the answers but could not structure them well.I wanted to create a self-help book which would enable business analysts doing well in the interviews and getting their dream jobs.This book has four sections as describes below.Section I deals with general questions. These questions give the interviewer(s) the first impression about your confidence, composure, and basic communication skills. This section includes General questions about you and your profile as well as General BA questions about the role and the projects.Second II - Business Analysis core skills has questions relating to Requirements elicitation, techniques, UML modelling, Requirements specifications documentation (Business Analysis core skills). It covers various aspects of requirements, Use cases, process diagrams, SRS and its elements, prioritization, elicitation, verification, and validation etc. It is also the longest section of the book. Section III deals with Agile, SCRUM and user stories. There are advance questions relating to personas and application usability as well.Section IV includes some additional questions on Business analysis. Section V deals with the situation / scenario-based questions. These questions are asked in the BA interviews regularly. I have tried to cover 20+ situations questions to provide a wide coverage. Each of the answers have been provided with the context and suggested answers.ContributorsI must thank my colleagues Rashmi

Srivastava and Neha for the sincere and diligent contributions to help me with inputs and feedbacks.Abhishek Srivastava
