This textbook explores the theoretical and practical aspects of managing international business operations while also dealing with multi-cultural, multi-national and global issues of managing business expansion beyond the domestic market. A second, revised edition of *Managing Internationally: Succeeding in a Culturally Diverse World*, each chapter contains up-to-date material, in-depth coverage of topics, visual aids (i.e., charts, tables, etc.), and vignettes, making this new edition engaging, visually appealing and easily accessible for students taking International Business Management courses. The contents of this textbook are separated into four parts. Part one offers introductory information on the scope and

importance of international business management as well as the social and ethical challenges. Part two covers cultural and behavioral topics. Part three discusses the strategic and operational aspects of international business management. Part four explores human resources and labor relations. To assist students, each chapter starts a preview section which includes an outline of the chapter indicating the important aspects along with a brief description of the major issues. Following the preview is a vignette that encapsulates the crux of the chapter, often presented in an amusing and engaging manner. To further help students focus on key issues, the text includes the list of useful business cases to which students can refer. To assist professors in teaching from this book, ancillary teaching materials such as sample syllabi, slides, tests and answer keys will be available for download.

The air transport industry is highly vulnerable to environmental changes as was seen when the recent COVID-19 pandemic caused most airline operations to cease. However, for decades airlines have been collapsing around the globe as the business of managing airline operations has become stressed due to price competition. This is detrimental to air carriers since air transport products and services are the same. Moreover, it impacts other industries such as tourism, hotels, and restaurants, which contribute to the derailment of economic and social activities. Thus, it is essential to determine new practices and strategies that can allow air transport management to be enriched and to flourish. *Global Air Transport Management and Reshaping Business Models for the New Era* provides a comprehensive collection of knowledge on the new era of business management on air transport. It provides strategies, technologies, and tools used in the reshaping of the air transport business model. Covering topics such as customer experience, robotic process automation, and airline alliances, this major reference work is an essential resource for airline managers, supply chain specialists, air transport managers, students and faculty of higher education, libraries, researchers, economists, government officials, and academicians.
