Un práctico curso de las finanzas personales, este libro es una innovadora guía que todo el mundo necesita para ayudar a manejar su dinero y para sentirse más seguro. Varias encuestas han encontrado que dos tercios de la población mundial sería incapaz de aprobar un examen básico sobre finanzas, y nueve de cada diez personas piensan que las finanzas personales deberían formar parte de la educación durante el bachillerato. Mientras Tina Hay estudiaba en la Harvard Business School se tuvo que emplear a fondo para mantener el nivel de sus compañeros, la mayoría de ellos provenían del mundo de la banca, que tenían más y mejores conocimientos para comprender la jerga financiera y los conceptos más complejos. Tina desarrolló una estrategia de aprendizaje visual utilizando bocetos e infografías que le ayudaron a triunfar en sus estudios incluso en los tópicos financieros más complejos. Tina fundó Napkin Finance, una prospera empresa construida bajo la premisa de tomar conceptos aparentemente abrumadores, tales como presupuestos, inversiones o cuentas para el retiro, y convertirlos en algo simple a través de explicaciones sencillas. Ahora, Tina ha sintetizado el contenido más importante en este libro práctico sobre finanzas personales. Tus finanzas en una servilleta incluye docenas de módulos de aprendizaje individual sobre los temas más utilizados en la vida cotidiana. La primera guía ilustrada que hará de las finanzas algo tan ameno como accesible. ENGLISH DESCRIPTION WALL STREET JOURNAL BESTSELLER "An incredible, compelling read. It covers an astonishing amount of ground with basic simplicity and good humor. A masterful starting point for any investor. Tina Hay

is a wizard."--Ben Stein, economist, author, actor and commentator A handy crash course in personal finance, Napkin Finance is the groundbreaking guide everyone needs to help them manage their money and feel more secure. Surveys have found that two thirds of Americans can't pass a basic financial literacy test, and nine in ten believe personal finance should become a required high school course. Tina Hay understands the confusion. While attending Harvard Business School, she struggled to keep up with classmates--many of whom came from the banking world--when it came to understanding jargon and numbers-heavy concepts. Tina developed a visual learning strategy using sketches and infographics that helped her succeed in her studies and master even the most complex financial topics. Since then, Tina founded Napkin Finance, a thriving company built on the concept of taking seemingly overwhelming topics--such as budgeting, investments, and retirement accounts--and turning them into simple, skimmable explanations. Now, she's synthesized the most important content into this personal finance handbook. Napkin Finance includes dozens of individual learning modules, on topics ranging from credit scores to paying off student loans to economics and blockchain. The first illustrated guide that makes finance fun and accessible, Napkin Finance can help even the most numbers-phobic reader learn about complex financial topics without dying of boredom.

Three Books in One Do you want to know the secrets to investing? Schools used to teach practical skills such as home economics, workshop, and things that MIGHT have helped you as an adult. With the global economy, everything practical has been pushed out of school and into life. In school, you're taught a lesson and then given a test. In life, you're given a test that teaches you a lesson.---Tom Bodett  
In this global, 24/7 economy, if you want to get ahead, then you have to teach yourself what others have already learned and what ninety-eight percent of people will be too lazy or oblivious to learning. Does this mean that you can outwork the majority of people to get ahead? Yes. But you would benefit from merely being able to out-think them, which is much easier and much more productive. Vilfredo Pareto noticed an unequal relationship between inputs (work) and outputs (results). His theory, commonly known as the 80/20 principle, states that 20% of my effort is responsible for 80% of my results. The 20% of the effort you invest should be in optimizing and taking control of four crucial areas of your life: Personal Finance, Real Estate Investing, Money Making Opportunities, and Business Investing. If you are to get out of your life what you really deserve to receive, you will have to know how to manage: Your personal finances understanding your cash flow and by creating opportunities to make more money than you spend. Your real estate investing by knowing when and how to decide to hire a real estate agent and how to do real estate investing on your own. Your business investing so that you have a successful business, which brings you maximum income with the least amount of effort. This book will teach you about all these areas of finance and investment.

A Whole New Way to Look at Your Money...and Make It Grow! "Here is a lively new guide that offers fresh and actionable ways to approach everyday financial problems. Whether you're rich or just getting by, starting your career or winding down, you'll benefit from the author's insightful observations and suggestions—all delivered with warmth and wit." —Evan Cooper, Deputy Editor, InvestmentNews "The author's unique gift is to make complex ideas from the world of high finance simple to understand, and his new book gently coaches readers in how to think about their personal finances. Best of all, readers can use Milevsky's financial calculators online to test these ideas, so they can make choices with

confidence. Investing in this book might be the wisest financial decision you make this year.” —Gil Weinreich, Editor, Research Magazine “The author has accomplished the near impossible. He has made the complicated, confusing, and often contradictory world of personal financial planning easy to understand. More importantly, he’s made it easy to act on his ground-breaking advice and guidance and has made it easy for readers to address their most important financial decisions in a thoughtful, practical, and painless manner.” — Robert Powell, Editor, Retirement Weekly and Retirement Columnist, [www.MarketWatch.com/retirement](http://www.MarketWatch.com/retirement) “What are the nine crucial financial decisions every person must make over the course of a lifetime? If you don’t know, read this book. The author’s nine choices revolve around his core concept of human capital and how it must be gradually converted to financial capital to achieve a successful retirement.” —Jonathan Chevreau, National Post Columnist and Author of *Findependence Day* “Your Money Milestones helps just about anyone see life’s most important money decisions in a fresh and completely rational light. If you want a smart, practical roadmap to a financially sound future, you need this book.” —Eric Schurenberg, Editor-in-Chief, BNET Your Money Milestones illustrates how four principles inspired by basic arithmetic can be applied to manage the most important financial decisions (money milestones) people face over their entire financial lifecycles. Addition: Identify the true value all of your financial resources. Subtraction: Budget for the hidden liabilities in your future. Division: Spend your total resources evenly over time. Multiplication: Prepare for many alternative and unexpected universes. This book offers a complete framework for thinking about money that’s every bit as provocative as *Freakonomics*. Drawing on the newest research into psychology and personal finance, Milevsky helps you identify the true value all of your resources; budget for hidden liabilities in your future; plan to spend your total resources smoothly over time; and prepare for unexpected events that could upend even the most careful planning. You’ll discover why children are short-term investment liabilities but may be long-term pension assets, why winning the lottery may increase your chances of going bankrupt, and why giving up control of your retirement nest egg might actually make you happier. The insights are fascinating and useful throughout your life whether you’re deciding what to study, contemplating your first home purchase, deciding whether to keep contributing to your 401(k), or considering when and whether to retire.

Every Bible verse on finances, all in one book In a world of shifting economic realities, few financial equations last very long. In the marketplace, countless writers, analysts, and con artists clamor for the public ear. Whose voice can we trust? Which financial principles will stand the test of time? The Word on Finances sorts through the clamor of advice, plans, and ideas to bring us back to the final word we most need to hear: God's. Author Larry Burkett has organized an invaluable collection of relevant Scriptures into one easy-to-reference volume. Topically arranged New American Standard Bible passages and a concordance focus attention on 70 areas of finance and stewardship, all grouped under 8 headings: Right attitudes Wrong attitudes Credit Giving and providing God's blessings and curses Investing Work and Wages Government Borrowing, bribery, planning, saving, taxes, and more—if the Bible mentions it, it's in this book. With Burkett's practical wisdom opening each topical selection, The Word on Finances is a go-to guide for spending money wisely and in a way that honors God.
